Netflix, Inc Alan Nathan Hoffman, 2013 In 2011 Netflix was the world's largest online movie rental service Its subscribers paid to have DVDs delivered to their homes through the U.S. mail or to access and watch unlimited TV shows and movies streamed over the Internet to their TVs mobile devices or computers The company was founded by Marc Randolph and Reed Hastings in August 1997 in Scotts Valley California after they had left Pure Software Hastings was inspired to start Netflix after being charged 40 for an overdue video Initially Netflix provided movies at 6 per rental but moved to a monthly subscription rate in 1999 dropping the single rental model soon after From then on the company built its reputation on the business model of flat fee unlimited rentals per month without any late fees or shipping and handling fees

Netflix David Robinson, Max Oltersdorf, 2013 Beginning in 2007 Netflix began offering existing mail rental subscribers the opportunity to view a limited number of movies through internet streaming and no additional fee This free streaming continued until mid 2011 when Netflix announced a split to their business with separate monthly fees and separate websites and names for streaming and mail disk subscriptions The resulting customer backlash and threatened defections caused the company's stock price to drop 60 percent As movie studios the owners of the content saw sales of DVDs drop they began to sharply raise their prices for online content Moreover Netflix which had been dominant in the mail disk rental model began to face substantial competition from other streaming video providers The case study provides students with an opportunity learn about pricing and to develop a pricing strategy for Netflix
