Sun Valley, Ketchum, and the Wood River Valley John W. Lundin, 2020-06-29 Sun Valley and Ketchum are in Idaho's Wood River Valley gateway to backcountry and wilderness areas. Settlers first arrived in the early 1880s attracted by a silver rush. In 1883 the railroad connected the valley to the world beyond its borders and brought in outside capital. During the silver depression of the 1890s mining was replaced by sheep raising and the area later shipped more sheep than anywhere except Australia. In 1936 during the Great Depression Union Pacific board chairman Averell Harriman built Sun Valley the country's first destination ski resort spending 2.5 million in two years 45 million today. Sun Valley offered a lavish lifestyle a luxurious lodge Austrian ski instructors and chairlifts invented by Union Pacific engineers. Known as America's St. Moritz it was a magnet for beautiful people and serious skiers. It had a monopoly on grandeur for decades and influenced ski areas that developed later. Subsequent owners Bill Janss and the Holding family expanded and improved Sun Valley making it one of the world's premier year-round resorts. *The Politics of Time* Guy Standing, 2023-10-26 Guy Standing's books have over the years pieced together a necessary political and intellectual agenda. His *Politics of Time* is a splendid and timely addition to this body of important work. Yanis Varoufakis: Time has always been political. Throughout history how we use our time has been defined and controlled by the powerful and today is no exception. But we can reclaim control and in this book the pioneering economist Guy Standing shows us how. The ancient Greeks organised time into five categories: work, labour, recreation, leisure, and contemplation. Labour was onerous whereas leisure was *scholē* and included participation in public life and lifelong education. Since the industrial revolution our time has been shaped by capitalism; our jobs are supposed to provide all meaning in life; our time outside labour is considered simply time off and politicians prioritise jobs above all other aspects of a good life. Today we are experiencing the age of chronic uncertainty. Mental illness is on the rise; some people are experiencing more time freedom while many others are having more and more of their time stolen from them, particularly the vulnerable and those in the precariat. But there is a way forward. We can create a new politics of time, one that liberates us and helps save the planet through strengthening real leisure and working together through commoning. We can retake control of our time but we must do it together. **Federal Register**, 1946-05 *Emerging Technologies and Marketing Strategies for Sustainable Agriculture* Garwi, Jabulani, Masengu, Reason, Chiwaridzo, Option Takunda, 2024-04-09 In the face of escalating environmental challenges and growing concerns about food security the agricultural industry is at a critical juncture.
