Viral Cozy Mystery Usa Returns:

The Predictable Heartbreaks of Imogen Finch Jacqueline Firkins, 2023-10-31 Jacqueline Firkins's *The Predictable Heartbreaks of Imogen Finch* is a beautiful story of friendship and second chances at love. Imogen Finch has just been through her seventeenth breakup. She saw it coming so she's not as crushed as she might be, but with all seventeen of her exes leaving her for other partners, she's come to believe a prediction her well-intentioned and possibly clairvoyant mother made over twenty years ago that Imogen would never come first at anything or to anyone. Is her love life failing due to a magical curse? Insufficient effort? Poor timing or personality mismatches? Everyone has opinions on the matter. Imogen's ready to give up altogether. But when Eliot Swift, her secret high school crush, returns to their small coastal town after a decade of nomadic travels, Imogen has new motivation to try again. Eliot's full of encouragement. He suggests that her curse is not only imagined; it's easily breakable. All they need is one win, any win, and she can believe in love and in herself again. From trivia games to swimming races to corn shucking contests, the pair sets out to snag Imogen her first first. But when victory proves more elusive than Eliot anticipated and when his deep-seeded wanderlust compels him to depart for far away places, Imogen fears she's destined to remain in second place forever. Fortunately for them both, sometimes magic lingers in the most unexpected places. And love is far from predictable. Weekly World News, 2004-10-04

Rooted in the creative success of over 30 years of supermarket tabloid publishing, the *Weekly World News* has been the world's only reliable news source since 1979. The online hub www.weeklyworldnews.com is a leading entertainment news site. In Cold Pursuit Jon Barnard Gilmore, 1998 Find out what tropical island dwellers and Arctic explorers can teach us about the common cold. It is one of the most elusive forces in nature. It has defeated some of our century's brightest minds. What Gilmore makes clear in this intriguing new book is that there is nothing common about the common cold. Everything you thought you knew about the cold will now have to be revised. *In Cold Pursuit* takes readers to the four corners of the world from scientific centres in Amsterdam, Munich, Chicago, and Toronto to research stations in Arctic Norway and submarines in the South Seas. Gilmore explains in clear, accessible language what past and present research has told us about this mysterious virus and proffers the notion that a cure for the common cold may prove more harmful than good.
