Israel's Military Operations in Gaza Marouf Hasian Jr, 2016-03-31 Civilians in Gaza and Israel are caught up in complex violent situations that have overstepped conventional battle lines Both sides of the conflict have found ways to legitimate the use of violence and continually swap accusations of violations of domestic and international humanitarian laws Israel's Military Operations in Gaza provides an ideological critique of the legal military and social media texts that have been used to legitimate historical incursions into the Gaza with special focus on Operation Protective Edge It argues that both the Palestinians and the Israelis have deployed various forms of telegraphic warfare They have each used argumentative rhetorics based on competing interpretations of events and are locked in a battle to convince international audiences and domestic constituencies of the righteousness of their causes This critical genealogical study analyses a range of texts and images from selfies circulated near the Gaza border to judicial opinions produced by the High Court of Israel With its multidisciplinary approach and original analysis of the Israel Gaza situation this book will be of interest to students and scholars of Middle East studies and the Arab Israeli conflict as well as security studies and communication studies The Oxford Handbook of Music and Virtuality Sheila Whiteley, Shara Rambarran, 2016 Has the virtual invaded the realm of the real or has the real expanded its definition to include what once was characterized as virtual With the continual evolution of digital technology this distinction grows increasingly hazy But perhaps the distinction has become obsolete perhaps it is time to pay attention to the intersections mutations and transmigrations of the virtual and the real Certainly it is time to reinterpret the practice and study of music The Oxford Handbook of Music and Virtuality edited by Sheila Whiteley and Shara Rambarran is the first book to offer a kaleidoscope of interdisciplinary perspectives from scholars around the globe on the way in which virtuality mediates the dissemination acquisition performance creation and reimagining of music The Oxford Handbook of Music and Virtuality addresses eight themes that often overlap and interact with one another Questions of the role of the audience artistic agency individual and communal identity subjectivity and spatiality repeatedly arise Authors specifically explore phenomena including holographic musicians and virtual bands and the benefits and detriments surrounding the free circulation of music on the internet In addition the book investigates the way in which fans and musicians negotiate gender identities as well as the dynamics of audience participation and community building in a virtual environment The handbook rehistoricizes the virtual by tracing its progression from cartoons in the 1950s to current industry innovations and changes in practice Well grounded and wide reaching this is a book that students of any number of disciplines from Music to Cultural Studies have awaited **Antonio Brown** David Aretha, 2019-06-01 The son of legendary Arena Football League player Touchdown Eddie Brown wide receiver Antonio Brown is nearly as known for his end zone dances as he is for the sheer number of receptions and receiving yards he has racked up since being drafted by the Pittsburgh Steelers in 2010 However none of his success came without struggle Antonio's parents would divorce when he was a child and he went through a period of extreme hardship homelessness and rejection from multiple colleges even being expelled from one before making

his way to Central Michigan University and from there to the NFL Antonio Brown is a compelling profile of one of football's best wide receivers This lively biography provides readers with a behind the scenes look at Brown's personality life and career *Social Media Entertainment* Stuart Cunningham, David Craig, 2019-02-26 Winner 2020 Outstanding Book Award given by the International Communication Association Honorable Mention 2020 Nancy Baym Book Award given by the Association of Internet Researchers How the transformation of social media platforms and user experience have redefined the entertainment industry In a little over a decade competing social media platforms including YouTube Facebook Twitter Instagram and Snapchat have given rise to a new creative industry social media entertainment Operating at the intersection of the entertainment and interactivity communication and content industries social media entertainment creators have harnessed these platforms to generate new kinds of content separate from the century long model of intellectual property control in the traditional entertainment industry Social media entertainment has expanded rapidly and the traditional entertainment industry has been forced to cede significant power and influence to content creators their fans and subscribers Digital platforms have created a natural market for embedded advertising changing the worlds of marketing and communication in their wake Combined these factors have produced new radically shifting demands on the entertainment industry posing new challenges for screen regimes media scholars industry professionals content creators and audiences alike Stuart Cunningham and David Craig chronicle the rise of social media entertainment and its impact on media consumption and production A massive industry defining study with insight from over 100 industry insiders *Social Media Entertainment* explores the latest transformations in the entertainment industry in this time of digital disruption

Metanoia Adam Ellwanger, 2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual's transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger's study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity **Make Money From Faceless YouTube Automation MRR By**

Khaled Baoween Khaled Baoween,2024-04-17 Faceless YouTube Automation MRR appears to refer to a concept or a business model related to generating Monthly Recurring Revenue MRR through automated YouTube content creation or management without revealing the creator's identity or showing their face on the platform This could involve various strategies such as Automated Content Creation Using software or algorithms to generate and upload videos automatically based on certain criteria like trending topics keywords or specific niches Content Curation Curating existing videos from other creators or sources and compiling them into thematic playlists or channels Monetization Strategies Implementing various monetization methods such as ads sponsorships affiliate marketing or selling digital products services related to the content niche SEO and Marketing Automation Leveraging automation tools for search engine optimization SEO social media marketing and audience engagement to drive traffic and increase visibility Outsourcing and Delegation Hiring freelancers or virtual assistants to handle different aspects of content creation management and promotion The term faceless suggests that the creator prefers to remain anonymous or undisclosed possibly to avoid personal branding or to maintain privacy This approach allows focusing solely on the content and its profitability without associating it with a specific individual MRR or Monthly Recurring Revenue is a key metric for subscription based businesses indicating the predictable revenue generated from subscriptions or recurring payments on a monthly basis In the context of YouTube it could refer to the consistent revenue generated from ad monetization memberships or other recurring sources Combining automation with YouTube content creation can streamline processes scale operations and potentially generate passive income over time However it is essential to adhere to YouTube's policies and guidelines to ensure compliance and avoid penalties such as demonetization or account suspension

The Governance of Privacy Hans Bruijn,2025-10-01 We can hardly underestimate the importance of privacy in our data driven world Privacy breaches are not just about disclosing information Personal data is used to profile and manipulate us sometimes on such a large scale that it affects society as a whole What can governments do to protect our privacy In The Governance of Privacy Hans de Bruijn first analyses the complexity of the governance challenge using the metaphor of a journey At the start users have strong incentives to share data Harvested data continue the journey that might lead to a privacy breach but not necessarily it can also lead to highly valued services That is why both preparedness at the start of the journey and resilience during the journey are crucial to privacy protection The book then explores three strategies to deal with governments the market and society Governments can use the power of the law they can exploit the power of the market by stimulating companies to compete on privacy and they can empower society strengthening its resilience in a data driven world
