Newell, 2023-08-29 *Food Faiths* Diet Religion and the Science of Spiritual Eating explores how individuals internalize scientific knowledge regarding health and diet and then incorporate that information into their lives as the basis of a personal spiritual practice In this book Catherine L Newell examines how science is used to justify a dietary lifestyle and investigates the world of spiritual eating which is comprised of practitioners who identify themselves not by a religion but by their diet These diets are based in diverse sciences such as anthropology ecology systems biology nutritional studies biomedicine and physiology adherents view their diet as a lifestyle a path to enlightenment and a nebulously defined point of health This in turn enables the practitioner to locate themselves in relation to other members of their community to older traditions suffused with religious practice and to understand their praxis in relation to the entire biosphere While on one level this project explores how food health and diet can be a source of spiritual fulfillment on another level *Food Faiths* illustrates how science and religion are subsumed into a culture and merged to form the basis of an individual's lived spiritual practice *Kings of the Garden* Adam J. Criblez, 2024-04-15 In *Kings of the Garden* Adam J Criblez traces the fall
