Billard, Silvio Waisbord, 2024-03-26 Prometheus brought the gift of enlightenment to humanity and suffered for his benevolence This collection takes on scholars Promethean view of themselves as selfless bringers of light and instead offers a new vision of public scholarship as service to society Thomas J Billard and Silvio Waisbord curate essays from a wide range of specialties within the study of communication Aimed at scholars and students alike the contributors use approaches from critical meditations to case studies to how to guides as they explore the possibilities of seeing shared knowledge not as a gift to be granted but as an imperative urging readers to address the problems of the world Throughout the volume the works show that a pivot to ideas of scholarship as public service is already underway in corners of communication studies across the country Visionary and provocative *Public Scholarship in Communication Studies* proposes a needed reconsideration of knowledge and a roadmap to its integration with community Contributors Elaine Almeida Becca Beets Thomas J Billard Danielle K Brown Aymar Jean Christian Stacey L Connaughton Paula Gardner Larry Gross Amy Jordan Daniel Kreiss Rachel Kuo Susan Mancino Shannon C McGregor Philip M Napoli Todd P Newman Srividya Ramasubramanian Chad Raphael Sue Robinson Silvio Waisbord Yidong Wang and Holley Wilkin

Co-Creativity and Engaged Scholarship Alex Franklin, 2022-01-02 This open access book explores creative and collaborative forms of research praxis within the social sustainability sciences The term co creativity is used in reference to both individual methods and overarching research approaches Supported by a series of in depth examples the edited collection critically reviews the potential of co creative research praxis to nurture just and transformative processes of change Included amongst the individual chapters are first hand accounts of such as militant research strategies and guerrilla narrative decolonial participative approaches appreciative inquiry and care ethics deep mapping photo voice community arts digital participatory mapping creative workshops and living labs The collection considers how through socially inclusive forms of action and reflection such co creative methods can be used to stimulate alternative understandings of why and how things are and how they could be It provides illustrations of and problematizes the use of co creative methods as overtly disruptive interventions in their own right and as a means of enriching the transformative potential of transdisciplinary and more traditional forms of social science research inquiry The positionality of the researcher together with the emotional and embodied dimensions of engaged scholarship are threads which run throughout the book So too does the question of how to communicate sustainability science research in a meaningful way

[The Power of Culture in City Planning](#) Tom Borrup, 2020-11-29 *The Power of Culture in City Planning* focuses on human diversity strengths needs and ways of living together in geographic communities The book turns attention to the anthropological definition of culture encouraging planners in both urban and cultural planning to focus on characteristics of humanity in all their variety It calls for a paradigm shift re positioning city planners base maps to start with a richer understanding of human cultures Borrup argues for cultural

master plans in parallel to transportation housing parks and other specialized plans while also changing the approach of city comprehensive planning to put people or users first rather than land uses as does the dominant practice Cultural plans as currently conceived are not sufficient to help cities keep pace with dizzying impacts of globalization immigration and rapidly changing cultural interests Cultural planners need to up their game and enriching their own and city planners cultural competencies is only one step Both planning practices have much to learn from one another and already overlap in more ways than most recognize This book highlights some of the strengths of the lesser known practice of cultural planning to help forge greater understanding and collaboration between the two practices empowering city planners with new tools to bring about more equitable communities This will be an important resource for students teachers and practitioners of city and cultural planning as well as municipal policymakers of all stripes
