The Individual's Guide to Grants Judith B. Margolin, 2012-12-06 This book is a work of conscience It is the product of a long standing feeling of obligation on my part to write something useful for a special group of people to which you probably belong individuals who seek grants In my years as Director of the New York library of The Foundation Center

each and every day I encountered numbers of individuals looking for grant money. Although I tried to be as supportive as possible in the face of the particular problems shared by this group of library users, my own reaction was one of relative helplessness. Simply stated, most of the fund-raising guides, printed directories, and computer files purportedly created to serve the fund-raising public are of little or no use to individuals who seek funding on their own. These resources are directed to the Foundation Center, the independent nonprofit organization established by foundations to provide information for the grant-seeking public. I PREFACE toward the nonprofit tax-exempt agency, which is the most common recipient of foundation corporate and government largess. They are not designed to respond to the special requirements of the individual grant seeker. In the applicant eligibility index, the Catalog of Federal Domestic Assistance defines individuals as homeowners, students, farmers, artists, scientists, consumers, small business persons, minors, refugees, aliens, veterans, senior citizens, low-income persons, health and educational professionals, builders, contractors, developers, handicapped persons, the physically afflicted. In short, practically everyone qualifies.

The Life of R. H. Tawney Lawrence Goldman, 2013-09-12 R. H. Tawney was the most influential theorist and exponent of socialism in Britain in the 20th century and also a leading historian. Based on papers deposited at the London School of Economics, including a collection of personal material previously held by his family, this book provides the first detailed biography. Lawrence Goldman shows that to understand Tawney's work, it is necessary to understand his life. This biography takes a broadly chronological approach and uses this framework to examine major themes, including Tawney's political thought and historical writings. Tawney was the most representative of Labour's intellectuals as well as the most influential, and the contradictions he embodied are evident in the general history of British socialism.

The Scholarship of Teaching and Learning in and Across Disciplines Kathleen McKinney, 2013 Provides a state-of-the-field review of recent SoTL scholarship.

The Scholarship of Teaching and Learning In and Across the Disciplines Kathleen McKinney, 2013-01-21 The scholarship of teaching and learning (SoTL) began primarily as a discipline-based movement committed to exploring the signature pedagogical and learning styles of each discipline within higher education, with little exchange across disciplines. As the field has developed, new questions have arisen concerning cross-disciplinary comparison and learning in multidisciplinary settings. This volume, by a stellar group of experts, provides a state-of-the-field review of recent SoTL scholarship within a range of disciplines and offers a stimulating discussion of critical issues related to interdisciplinarity in teaching, learning, and SoTL research.
