Media and Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It's no secret today's media landscape is evolving at a fast and furious pace and students are experiencing these developments firsthand While students are familiar with and may be using the latest products and newest formats they may not understand how the media has evolved to this point or what all these changes mean This is where Media and Culture steps in The eighth edition pulls back the curtain and shows students how the media really works giving students the deeper insight and context they need to become informed media critics

Podcasting Junior Tidal, 2021-05-06 Podcasting A Practical Guide guides librarians through the process of creating a podcast It will help librarians digitally record their podcasts which can highlight library collections connect with patrons provide library instruction and market library services across the Internet Highlights include Step by step guidance for how to record a podcast specifically tailored for libraries and librarians Specifications on what kind of equipment software and hardware is necessary to record their own episodes Pre production techniques including script writing storyboard creation and how to find guests will be explored Coverage of the post production stage including audio editing incorporating music and effects and mixing episodes down for distribution will be explored Resources for help with on marketing the podcast using freely available and Creative Commons media to enhance episodes privacy issues related to the medium and making content accessible

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged

copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
