an incurable and often disabling disease of the central nervous system her own desperation made her fall prey to the seductive false promises of a charlatan It was Ellen one of the best known journalists in central Florida to whom viewers turned when they had been hoodwinked Her reports earned her awards gratitude and the satisfaction of seeing new laws passed to punish con artists At the time her MS was diagnosed her first response was denial then anger But five years later when she could no longer chase crooks down the street with her cameraman she felt truly frustrated Then she read a New York magazine cover story profiling an impeccably credentialed cardiovascular surgeon who claimed he had the answer to MS and other chronic illnesses She contacted him and he assured her that after a year of his treatment her multiple sclerosis would be gone and she would be walking again The price was 100 000 up front To Ellen stopping the disease s progression was worth anything With the help of her family she accumulated the money to pay the doctor Consequently she and many other patients were cheated by the doctor and far from getting better Ellen s condition deteriorated Torn between dwelling on this devastating experience and putting it behind her Ellen opted to go after the doctor to make sure that he did not hurt anyone else Strengthened never diminished by her illness and with all the skill and determination she used as a reporter she unraveled his scam Ellen the personification of persistence and courage also writes about the support of a large and loving family her twin sister Patricia is her coauthor and the remarkable compassion of the vast majority of those in the health care system Ellen is now triplegic and confined to a wheelchair and needs full time care Throughout her journey with multiple sclerosis she has refused to give in or give up In every sense this story is an inspiration Ellen s true story of hope and defeat promise and deception falling down and getting up again
