Boyhood Loves Protein Isabella Brooks, AI, 2025-02-27

Boyhood Loves Protein tackles the essential role of protein in a boy's growth and development, especially during formative years. It highlights the correlation between adequate protein intake and healthy growth parameters such as height and muscle mass, pointing out that protein deficiency can lead to stunted growth and weakened immunity. The book uniquely focuses on boys' specific nutritional needs, differentiating from general advice while emphasizing the benefits of meat as a complete protein source with readily available amino acids. The book explores the science behind protein's nutritional value, detailing its role in muscle building, bone strengthening, and hormone production. It then transitions to practical applications, offering meal plans, recipes, and actionable tips for parents to ensure their sons meet their protein requirements. This approach equips parents with the knowledge to assess their son's protein intake and implement strategies for improvement, ultimately aiming for better health outcomes through informed dietary choices and addressing pediatric nutrition.

Artificial Intelligence in Sales Manuel Beck, 2025-06-23

This book provides a practical introduction to the application and implementation of Artificial Intelligence (AI) in sales organizations. The author demonstrates how companies can generate a significant competitive advantage through the targeted use of AI in sales. Step by step, he explains the innovative possibilities offered by various types and methods of AI throughout the entire sales cycle and how they can be applied at key customer touchpoints, from lead generation and qualification to outreach and conversation support, as well as presentation, proposal creation, negotiation, customer care, and onboarding. Both classical and generative AI tools are examined; numerous use cases are presented, and specific prompting suggestions for AI-supported work with ChatGPT and other generative language models are provided.
