account that pays 0.1%. That isn't enough money for anything. I prefer to save my emergency fund in a high yield savings account that pays 4.0% or higher. Over 30 years a 15,000 deposit in a high yield savings account would become 45,000 while the same 15,000 would grow to 15,500 in a standard savings account. The first step to financial freedom is following a strict budget. After that you must save in a high yield savings account to give every dollar a mission. Good Luck.
