Genealogy Katherine Pennavaria, 2015-04-08 Commercials for the largest subscription database indicate that the process of genealogy is simple you just plug in what you know and the database does the rest Those ads might sell subscriptions but they are misleading Getting beyond that low hanging fruit is not so easy collecting the records and data needed to delineate a family tree accurately requires time organization and informed searching Records are available from many places and finding them is never a one stop shopping experience So how does the new researcher identify which resources meet his or her specific research needs And how can libraries and librarians best help this new generation of genealogists Genealogy A Practical Guide for Librarians offers help on several levels First librarians can use this book to learn what resources both print and online their library should offer their patron base This means not only what monographs to purchase and subscription databases to maintain but what websites to highlight at the library's webpage what to include in their online tutorials what adult education programming is appropriate Critical assessments of print and online resources are given including the strengths and weaknesses that librarians need to help patrons understand them Second both librarians and researchers can find here an in depth discussion of the research process itself including the best steps for a beginning researcher and search strategies for the experienced one And third anyone can use this book to become better informed about the phenomenon of genealogy itself and about the latest standards for online searching and research The book includes practical advice for every public service librarian and offers all researchers from novice level to experienced a clearly delineated context for the popular subject of family history research

Semi-Organic Growth George T. Geis, 2015-05-07 An in depth examination of Google's innovative approach to M A *Semi Organic Growth* presents a unique analysis of Google's distinctive expertise in the area of mergers and acquisitions derived from more than 150 acquisitions carried out over the company's short history While organizational growth has traditionally been characterized as organic internally generated or inorganic from acquisition this book examines Google's semi organic strategy for accelerating product and service revenue explained through a unique sector subsector classification scheme that dynamically maps the media Internet and technology platform markets You'll gain insight into Google's disclosure strategies for private company transactions and more importantly their methods for integrating acquisitions into product and service offerings to achieve ecosystem synergy Unique perspective reveals the lessons learned along the way from both successes and failures and the companion website gives you access to the tools that

help you implement what you've learned Google's extensive use of M A as a growth strategy has been in sharp contrast to the practices of rivals like Apple and further contrasts with the failures of many other companies in corporate business development This book shows you the thinking behind the company's successful methods and demonstrates the mechanisms behind the success Learn why corporate M A activity often fails to add value Delve deep into the complex dimensions of M A integration Discover what Google has learned through specific deals Consider innovative integration methods that foster synergy Google is an iconic premiere company and it didn't happen by accident Their success is driven by their innovative approach to strategy in all areas and their M A expertise has been a major contributing factor Semi Organic Growth takes you through the core workings of Google M A to provide insight into successful strategy for the modern market **The Iron Age** ,1906 **Pulp and Paper Magazine of Canada** ,1957 **Investment Bankers and Brokers of America** ,1924
