A working knowledge of HTML is required, and some programming experience is beneficial.

The Return of the Russian Leviathan Sergei Medvedev, 2019-12-18 Winner of the 2020 Pushkin House Book Prize, Russia's relationship with its neighbours and with the West has worsened dramatically in recent years. Under Vladimir Putin's leadership, the country has annexed Crimea, begun a war in Eastern Ukraine, used chemical weapons on the streets of the UK, and created an army of Internet trolls to meddle in the US presidential elections. How should we understand this apparent relapse into aggressive imperialism and militarism? In this book, Sergei Medvedev argues that this new wave of Russian nationalism is the result of mentalities that have long been embedded within the Russian psyche. Whereas in the West, the turbulent social changes of the 1960s and a rising awareness of the legacy of colonialism have modernized attitudes, Russia has been stymied by an enduring sense of superiority over its neighbours, alongside a painful nostalgia for empire. It is this infantilized and irrational worldview that Putin and others have exploited, as seen most clearly in Russia's recent foreign policy decisions, including the annexation of Crimea. This sharp and insightful book, full of irony and humour, shows how the archaic forces of imperial revanchism have been brought back to life, shaking Russian society and threatening the outside world. It will be of great interest to anyone trying to understand the forces shaping Russian politics and society today. Also available as an audiobook.

Beginning Google Maps Applications with PHP and Ajax Jeffrey Sambells, Michael Purvis, Cameron Turner, 2007-12-22 Until recently, building interactive web-based mapping applications has been a cumbersome affair. This changed when Google released its powerful Maps API. Beginning Google Maps Applications with PHP and Ajax was written to help you take advantage of this technology in your own endeavors, whether you're an enthusiast playing for fun or a professional building for profit. This book covers version 2 of the API, including Google's new Geocoding service. Authors Jeffrey Sambells, Cameron Turner, and Michael Purvis get rolling with examples that require hardly any code at all, but you'll quickly become acquainted with many facets of the Maps API. They demonstrate powerful methods for simultaneously plotting large data sets, creating your own map overlays, and harvesting and geocoding sets of addresses. You'll see how to set up alternative tile sets and where to access imagery to use for them.

The authors even show you how to build your own geocoder from scratch for those high volume batch jobs As well as providing hands on examples of real mapping projects this book supplies a complete reference for the Maps API along with the relevant aspects of JavaScript CSS PHP and SQL Visit the authors website for additional tips and advice [The New Democrats and the Return to Power](#) Al From,Alice McKeon,2013-12-03 From the founder of the influential Democratic Leadership Council a behind the scenes look at the rise of the New Democrats and how they built the foundation for a new generation of progressive leaders [Sharing Economy and the Impact of Collaborative Consumption](#) de Luna, Iviane Ramos,Fitó-Bertran, Àngels,Lladós-Masllorens, Josep,Liébana-Cabanillas, Francisco,2019-09-20 The introduction of new technology and technological services worldwide has ushered in a new wave of peer to peer and access driven companies that are disrupting the most established business categories The emergence of these new business models has upset the flow in contemporary society and transformed people s behavior towards sharing based economies Companies and entrepreneurs can see this significant change in people s behavior as both an opportunity and a threat Sharing Economy and the Impact of Collaborative Consumption provides emerging research on the impact that the sharing services are having on society as well as the importance of the sharing economy development in the coming years dealing with relevant issues such as regulations the technological aspects involved in these platforms the impact in the tourism sector and consumer behavior in relation to these services Multidisciplinary in nature this publication establishes links between economics finance marketing consumer behavior and IT and covers topics that include e commerce consumer behavior and peer economy It is ideally designed for researchers students business professionals and entrepreneurs seeking current research on the impact that this industry has on various economic marketing and societal aspects of different countries [Sustainable Transport and Tourism Destinations](#) Luca Zamparini,2021-02-08 Transport and sustainability are intrinsically linked This book examines the links between transport tourism and sustainability by means of a series of large case studies covering several countries *ePub - European Conference on Social Media* Sue Greener,Asher Rospigliosi,2014-11-07 [Photoshop Elements 11 Top 100 Simplified Tips and Tricks](#) Rob Sheppard,2012-10-30 If you understand the basics of Photoshop Elements and are eager to try out some unique tips and techniques then you ll love this collection of 100 must know tips and tricks *Quarterly Returns of Trade ...
