Fast Politics Laura Pérez Rastrilla, Pablo Sapag M., Armando Recio García, 2023-10-17 The goal of this book is to show the role of TikTok as a tool for political purposes To this end the authors analyse the messages posted on this social medium by political figures

and institutions such as politicians and political parties their impact on political landscapes as well as the transformation of political communication techniques in order to suit the platform's features. In the last two years the exponential growth of TikTok has led an increasing number of politicians and institutions to incorporate it into their communication strategies. The platform displays some very different features from other social media that determine the way in which the content is presented. In addition, it manages to reach an audience that normally does not access or share political messages. Within this context, the volume pursues two main objectives. First, to examine how the communication techniques and the peculiarities of this social medium where short videos with actors in informal attitudes prevail affect the political message. A second objective is to analyse the influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters. The core of the book comprises case studies that are organised into three parts with nine chapters in all. The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives. The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed. The second part discusses the influence of TikTok on electoral scenarios and political culture in India, Bangladesh, the United States and Ecuador. Finally, in the third part, TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain. The volume is oriented to both scholars and communication professionals such as journalists, communication consultants and speechwriters who want to become familiar with the platform, learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium.

Chinese on the Move Seong Lin Ding, Rui Li, 2025-09-26. This book is the first to study the language and politics of identity of recent mainland Chinese migrants to Malaysia. Drawing on a variety of fieldwork data, the volume provides an accessible and succinct view of this new transnational migrant community in multilingual Malaysia. Unlike earlier Chinese migrants, the old Chinese communities who migrated to Malaysia previously British Malaya due to experiencing poverty in China, the new Chinese community in Malaysia comprises mainly students, professionals, migrants who participated in the Malaysia My Second Home (MM2H) programme and individuals who married locals. This book focuses on the experiences of these new migrants from mainland China: how they were received in Malaysian society, the language problems and barriers they faced, their language accommodation and potential linguistic dislocation, their attitudes and identities whether these shifted over time, and the invisibility and social inclusion of these migrants in Malaysian society. It also offers insights and understanding of the dynamic and complex nature of how migrants are inclined towards their home country while adapting to their host society. This book enriches the literature on language use and

adaptation in Chinese diaspora communities throughout the world as well as the politics of language and identity and it will be of interest to students and scholars of Sociolinguistics Chinese studies Asian studies Migration studies and Southeast Asian studies
