Information Systems Efrem G. Mallach, 2020-02-04. Most information systems textbooks overwhelm business students with overly technical information they may not need in their careers. This textbook takes a new approach to the required information systems course for business majors. For each topic covered, the text highlights key Take Aways that alert students to material they will need to remember during their careers. Sections titled Where You Fit In and Why This Chapter Matters explain how the topics being covered will impact students on the job. Review questions, discussion questions, and summaries are also included. This second edition is updated to include new technology along with a new running case study. Key features: Single-mindedly for business students who are not technical specialists. Doesn't try to prepare IS professionals; other courses will do that. Stresses the enabling technologies and application areas that matter the most today. Based on the author's real-world experience. Up-to-date regarding technology and tomorrow's business needs. This is the book the author and more importantly

his students wishes he had when he started teaching Dr Mallach holds degrees in engineering from Princeton and MIT and in business from Boston University He worked in the computer industry for two decades as Director of Strategic Planning for a major computer firm and as co founder CEO of a computer marketing consulting firm He taught information systems in the University of Massachusetts Lowell and Dartmouth business schools for 18 years then at Rhode Island College following his retirement He consults in industry and serves as Webmaster for his community in between hiking and travel with his wife
