argues that prominent American artists and musicians build encoded gestures of resistance into their works and challenge the status quo These artists offer both an interpretation and a critique of what This Is America means Using Childish Gambino's video for This Is America as a starting point Rios considers how elements including clothing hairstyles body movements gaze lighting effects distortion and word play symbolize American dissonance From Laurie Anderson's presence in challenging authority and playing with traditional gender roles in her works to the Black female feminism and social activism of Beyoncé Rhiannon Giddens and Janelle Monáe to hip hop as resistance in the age of Trump to sonic and visual variety in the musical Hamilton the subjects are as powerful as they are topical Rios explores the ways in which artists relate to and represent underrepresented groups especially groups that are not traditionally perceived as having a majority voice The encoded resistances recur across performances and video recordings so that they begin to become recognizable as repeated acts of resistance directed at injustices based on a number of categories including race gender class religion and politics

Bee Gees, Process and Latent Elements in Music Production Pat O'Grady, 2024-11-26 This book examines the creative process of the Bee Gees and the latent elements that shaped their sound From their formative Australian work to the highs of their disco years and the scores of songs they wrote and produced for other artists the Bee Gees catalogue is vast and varied It is also distinctive Songs feature their signature falsetto vocals close three part harmony and knack for pop songwriting This book takes a unique approach to the musicology of music production It analyzes processual accounts and demo recordings to uncover what are defined as the latent elements of music production such as instruments lyrics meanings space sounds and recording techniques that are crucial in shaping the completed recordings but are absent from what we hear It is a must read book for music production academics and students as well as anyone interested in the Bee Gees creative process

Popular Music in a Digital Music Economy Tim J. Anderson, 2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments

The Companion to Digital Humanities in Practice Constance Crompton, Laura Estill, Richard J. Lane, Ray Siemens, 2015-11-21
 The Companion to Digital Humanities in Practice offers international perspectives on how we teach and research in and with digital humanities today. Building on the foundation of earlier publications that focused on practice in the field this Companion provides a significant treatment of pertinent issues and contexts extending breadth and depth as well as reach in terms of geographical diversity of topics and contributors. Divided into four sections each with a high level practice oriented focus the volume covers data tools and techniques communication dissemination and engagement and pedagogical practices. Contributors to the volume include both established and emerging scholars. Foregrounding and critically reviewing the emergence and development of standards based communities of practice the Companion provides an overview of core competencies conceptualized case studies and links to further reading training materials and exercises. The Companion to Digital Humanities in Practice will appeal to academics researchers and postgraduate students working in DH literary studies history and the humanities more broadly. It should also be of interest to professionals working in DH and galleries libraries archives and museums.

Nothing But Net: 10 Timeless Stock-Picking Lessons from One of Wall Street's Top Tech Analysts Mark Mahaney, 2011-11-09
 Find the winners avoid the losers and build a solid Tech portfolio for the long run with proven methods from legendary analyst Mark Mahaney. The Tech industry is the stock market's hottest most profitable sector but it can be a roller coaster ride. Companies with great ideas can end up going nowhere and some that dominate today will be sold at fire sale prices in five years. Sure things can become sore things very rapidly. Nothing But Net provides the knowledge and insights you need to understand what's really hot to know what's not and to outperform other investors consistently and decisively. Famous for his smart savvy and unique approach to Tech stock investing Mark Mahaney provides his 10 proven rules for succeeding as a long term Tech stock investor explaining everything he's learned during almost 25 years of analyzing internet stocks including Why revenue growth and customer metrics not earnings are what matter most to Tech investors How to invest not trade in the great growth opportunities that lie ahead How to determine when high valuations are a warning sign and when they signal an opportunity I've watched the rise of some of the leading companies of today Facebook Amazon Netflix Google and the fall of some of the leading companies of yesterday Yahoo eBay and AOL. Mahaney writes Figuring out which companies really are going to be dominant franchises is an extremely hard thing to do. But those who accomplished this were arguably able to generate some of the best portfolio returns in the stock market over the past generation. Nothing But Net provides powerful advice for the next two decades lessons you can start applying today and use for years to come.

Teaching Copyright Sara E. Wolf, 2024-12-12 Lessons resources and annotated answer keys for instructors at all levels in teaching copyright law The teaching of copyright and related concepts can easily be overwhelming to instructors who are experts in their field but may have little to no detailed understanding of copyright law They require reliable accessible information to coach students on copyright related matters Teaching Copyright Practical Lesson Ideas and Instructional Resources provides explicit guidance based on U S copyright law in the teaching of copyright and related concepts to learners at schools colleges and universities Instructors are supported with time saving resources such as lesson templates scenarios practice activities and a downloadable test question bank Additionally Bloom s Taxonomy labels lessons activities and assessment items to enable an appropriately diverse set of learning for students Instead of reducing copyright to simple recall the lessons and information in this text will help instructors develop higher level thinking about copyright and assist them in measuring learners abilities not just to remember but also to analyze and evaluate copyright dilemmas **Sacred**

Sound and the Transcultural Practice of Kirtan Gustavo Moura, 2024-08-19 Ancient ideas on sacred sound find a very tangible and lively expression in the practice of kirtan which is a broad term referring to various forms of devotional singing commonly done in South Asian traditions Kirtan is a core practice in the Hindu and Sikh faiths that is becoming increasingly popular around the world among people of all ethnicities thus developing as a transnational and transcultural phenomenon Indeed the broader cultural implications and deepening social penetration that this practice has achieved over the past five decades suggest that it is attaining permanent status in the world s religious soundscape Sacred Sound and the Transcultural Practice of Kirtan explores the practice of kirtan as it has been re created in the United States Canada and Brazil through multi sided interactions that generate new cultural patterns in an ongoing process of cross pollination Approaching kirtan as a type of technology of the self Gustavo Moura combines textual historical and ethnographic sources to address the questions of how this practice is adopted and adapted in the Americas and how it has been shaping identities communities and traditions
