Generative AI and Implications for Ethics, Security, and Data Management

Gomathi Sankar, Jeganathan, David, Arokiaraj, 2024-08-21 As generative AI rapidly advances with the field of artificial intelligence, its presence poses significant ethical, security, and data management challenges. While this technology encourages innovation across various industries, ethical concerns regarding the potential misuse of AI-generated content for misinformation or manipulation may arise. The risks of AI-generated deepfakes and cyberattacks demand more research into effective security tactics. The supervision of datasets required to train generative AI models raises questions about privacy, consent, and responsible data management. As generative AI evolves further, research into the complex issues regarding its potential is required to safeguard ethical values and the security of people's data. **Generative AI and Implications for Ethics, Security, and Data Management** explores the implications of generative AI across various industries who may use the tool for improved organizational development. The security and data management benefits of generative AI are outlined while examining the topic within the lens of ethical and social impacts. This book covers topics such as cybersecurity, digital technology, and cloud storage and is a useful resource for computer engineers, IT professionals, technicians, sociologists, healthcare workers, researchers, scientists, and academicians.

Lead Like an MNC

Ashish Verma, 2025-08-26 What if the secret to scaling your MSME wasn't just more sales or better operations but world-class people systems? In **Lead Like an MNC**, seasoned HR transformation expert Ashish Verma pulls back the curtain on why most Indian MSMEs struggle to retain talent, build a scalable culture, or attract top professionals and how it all begins with one often overlooked function: Human Resources. Drawing from 30 years of deep experience with both global MNCs and homegrown MSMEs, Ashish presents a step-by-step founder-friendly playbook that transforms chaotic HR departments and unstructured people management into a scalable strategic system. This is not just another HR manual; it's a mindset shift. From building HR policies that actually work to aligning job roles with business goals, from attracting talent to conducting goal-driven performance reviews, this book offers actionable frameworks, checklists, assessments, and real-world examples that
