Young Children's

Rights in a Digital World Donell Holloway, Michele Willson, Karen Murcia, Catherine Archer, Francesca Stocco, 2021-08-19

This volume focuses on very young children's aged 0-8 rights in a digital world. It gathers current research from around the globe that focuses on young children's rights as agential citizens to the provision of and participation in digital devices and content as well as their right to protection from harm. The UN Digital Rights Framework of 2014 addresses children's needs, agency and vulnerability to harm in today's digital world and implies roles and responsibilities for a variety of social actors including the state, families, schools, commercial entities, researchers and children themselves. This volume presents a broad range of research including chapters on parental supervision and control, the changing forms of play, early childhood education, media and cultural studies, law, design, health, special needs education and engineering. Implicit within this book is the acknowledgement that children of various ages, abilities, socioeconomic and geographic backgrounds should have equal access to and positive, non-harmful experiences with new digital technologies and content as well as adult support and expertise that enhances these experiences. This passionate book celebrates the diversity of young children's activities in the digital world. It interrogates these through four intersecting lenses: their rights, play, experiences, contextualised design and best practice. Balancing children's eager engagement with digital content alongside adult responsibilities for education, privacy and protection, the volume provides a fitting showcase for work of global relevance. Professor Lelia Green, Professor of Communications, Edith Cowan University, Perth, Western Australia. This compelling text provides a critical resource to inform our understanding of the intersection of the digital world and children's rights. Ilene R. Berson, Ph.D., Professor of Early Childhood Education, Affiliate Faculty, Learning Design Technology Area Coordinator, Early Childhood Coordinator, Early Childhood Ph.D. Program, University of South Florida, College of Education. A truly international collection that investigates young children's engagement with digital technologies. Identifying issues of public interest around digital practices, this highly readable book is a valuable resource for researchers, parents and policy makers. Professor Susan Danby, Director, ARC Centre of Excellence for the Digital Child and Faculty of Education, School of Early Childhood and Inclusive Education, QUT, Kelvin Grove, Queensland. *Innovative Computing and Communications* Aboul Ella Hassanien, Sameer Anand, Ajay Jaiswal, Prabhat Kumar, 2025-09-26

This book includes high quality research papers presented at the Eighth International Conference on Innovative Computing and Communication (ICICC 2025) which is held at the Shaheed Sukhdev College of Business Studies, University of Delhi, Delhi, India on 14-15 February 2025. Introducing the innovative works of scientists, professors, research scholars, students and industrial experts in the field of computing and communication, the book promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real-time applications. Social Media and Online Consumer Decision Making in the Fashion Industry Tarnanidis, Theodore, Papachristou, Evridiki, Karypidis, Michail, Ismyrlis, Vasileios, 2023-08-01. Today many fashion brands use social media marketing strategies to increase awareness about their brand and influence consumers' decision making.

patterns Further consumers use social media platforms to find relevant and reliable information for structuring their preferences and making evaluations Web 2 0 tools in the digital age provide consumers with a plethora of interactive and user control information that helps them acquire and share brand information which in turn impacts their purchase decision preferences The bulk of the data produced by social media tools provides brand marketers with information about the consumers wants beliefs commitment habits and purchasing intentions which in turn is useful for the development and implementation of marketing strategies Social Media and Online Consumer Decision Making in the Fashion Industry provides critical research on effective methods techniques and tools for evaluating the impacts of social media on the consumer decision making process The book explores the pertinence of web based social media tools and how the fashion business sector can benefit from social media innovation approaches in digital environments Covering topics such as mobile apps consumer decision making processes and communication technologies this book is ideal for students brand executives marketing professionals researchers interested in social media technology and more Focus On: 100 Most Popular Television Series by Warner Bros.
