Then I'll give instructions on turning this outline into chapters and making ChatGPT OpenAI Playground or Sudowrite write the actual scenes in a brief period of time. Discovery writers or pantsers won't miss out either. I'll share methods to receive AI generated suggestions, imagine new directions or take an existing scene and reshape it with fresh ideas, imaginative twists and creative expansions. You'll be amazed how I take a single paragraph of an opening scene and iteratively operate on it to transform the AI created first draft into a coherent and engaging chapter. I also managed to get ChatGPT to write out a complete 14000 word novelette from an outline of 21 chapters. It stayed consistent and logical and followed the story arc. From there a writer could either manually fill in the gaps and enhance the story or feed it into Sudowrite for expansion, revision, tone shifts, adding detail or enhancing emotions. INCLUDES REAL EXAMPLES. I've retained all the original output from ChatGPT OpenAI Playground and Sudowrite while holding your hand through prompt after prompt explaining why I modified a prompt or reacting to the responses I got. I show you how to ask the AI tools to layer in more details, conflict and twists and even to ask ChatGPT how best to prompt it for the desired response. CATALOG OF TESTED PROMPTS.
