with the Salesforce ecosystem and demonstrate best practices for data modeling across Salesforce products and beyond. Once you've mastered the core knowledge you'll also learn about tools, techniques, and certification scenarios in preparation for the B2C Solution Architect exam. By the end of this book you'll have the skills to design scalable, secure, and future-proof solutions supporting critical business demands. What you will learn: Explore key Customer 360 products and their integration options. Choose the optimum integration architecture to unify data and experiences. Architect a single view of the customer to support service, marketing, and commerce. Plan for critical requirements, design decisions, and implementation sequences to avoid sub-optimal solutions. Integrate Customer 360 solutions into a single source of truth solution such as a master data model. Support business needs that require functionality from more than one component by orchestrating data and user flows.

Who this book is for: This book is for professionals in high-level job roles that heavily rely on Salesforce proficiency. It's primarily written for B2C commerce architects, application architects, integration architects, as well as system architects, enterprise architects, Salesforce architects, and CTO teams looking to benefit from a deeper understanding of this platform.

Before you get started you'll need a solid understanding of data integration, APIs, and connected systems, along with knowledge of the fundamentals of business-to-consumer (B2C) customer experiences.
