Social Justice, the Common Core, and Closing the Instructional Gap Janet C. Richards, Kristien Zenkov, 2015-10-01 There is little doubt that the Common Core State Standards CCSS are a controversial entity. They are provocative for the way in which they have been developed for the ways they are being implemented and evaluated for their content and for their failure to explicitly consider the needs, interests, and histories of diverse populations. While the CCSS continue to be problematized by critics around the country, including the editors of this volume, it is evident our nation is moving toward some would argue we have arrived at a national set of standards and/or a national curriculum. This text will be an important volume for multiple audiences in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula. It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice oriented CCSS focused curricula that empower diverse learners and their teachers. *Social Justice, the Common Core, and Closing the Instructional Gap* will consist of chapters by classroom teachers and university scholars who portray honest, engaging first person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards. These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments. They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world.

Turning the Page Rachel Slaughter, 2021-03-05 There is a dearth of multicultural literature in schools since few schools offer a curriculum that promotes multicultural education. However, by the year 2050, ethnic minority children will make up the majority of the United States public school classrooms. Multicultural literature is the building block of a multicultural education which reflects our nation's diversity and helps all students learn by providing help to bridge the cultural gap and promote racial awareness. Teachers often find it difficult to identify or find quality multicultural literature that adheres to the standard curriculum. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* helps educators find and evaluate multicultural books that are suitable for the classroom and align with the standard curriculum. The book includes a peer reviewed metric that shows teachers how to substitute biased books with multicultural literature that endorse the same themes. Second, the book includes reviews, lesson plans, and curated book lists of multicultural books. Finally, the book offers a stepwise plan on how to create a task force of school stakeholders who can implement a comprehensive multicultural program. In 2018, The National Association for Multicultural Education released standards for multicultural education to encourage school staff to become culturally competent and linguistically diverse. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* moves educators in that direction.
