Air Reserve Forces Review ,1956 *Reviews of National Policies for Education Chile's International Scholarship Programme* OECD, The World Bank, 2010-09-02 This report reviews Chile's scholarship abroad scheme and provides an overview of best practices for scholarship programmes at the international level In addition it analyses the design and institutional framework of the Chilean programme and recommends ways to maintain and improve the scheme Classical Scholarship and Its History Stephen Harrison, Christopher Pelling, 2021-04-06 It is unusual for a single scholar practically to reorient an entire sub field of study but this is what Chris Stray has done for the history of UK classical scholarship His remarkable combination of interests in the sociology of scholars and scholarship in the history of the book and of publishing and especially in the detailed intellectual contextualisation of classical scholarship as a form of classical reception has fundamentally changed the way the history of British classics and its study is viewed A generation ago the history of classical scholarship still consisted largely of accounts of particular scholars and groups of scholars written by other scholars from a broadly biographical and heroic individual perspective In these works scholars often sought to find their own place in the great tradition choosing to praise or blame those whose work they admired or deprecated and to identify with particular schools or trends and there were few attempts to provide a broader and less prosopographical perspective Almost all the chapters in the volume originated as papers at a conference in honour of the honorand and have been improved both by discussion there and by the rigorous peer review process conducted by the two experienced editors It covers various aspects of classical reception with a particular focus on the history of scholars their institutions and their writings the main focus is on the UK but there are also substantial engagements with continental Europe and especially the USA the period covered runs from the Renaissance to the present The cast contains a number of world famous names Unusually the volume also contains an essay by the honorand but we are very keen to include this especially as it focusses on the topic of scholarly collaboration **General Electric Review** General Electric Company, 1921 Study Techniques and the Improvement of Scholarship ... Archie Milton Turrell, 1936 *The Routledge Companion to Public Humanities Scholarship* Daniel Fisher-Livne, Michelle May-Curry, 2024-05-31 Across humanities disciplines public scholarship brings academics and community members and organizations together in mutually beneficial partnership for research teaching and programming

While the field of publicly engaged humanities scholarship has been growing for some time there are few volumes that have attempted to define and represent its scope The Routledge Companion to Public Humanities Scholarship brings together wide ranging case studies sharing perspectives on this work grounded in its practice in the United States The collection begins with chapters reflecting on theories and practices of public humanities scholarship The case studies that follow are organized around six areas of particular impact in public humanities scholarship Informing contemporary debates amplifying community voices and histories helping individuals and communities navigate difficult experiences preserving culture in times of crisis and change expanding educational access and building and supporting public scholarship The Companion concludes with a glossary introducing select concepts Taken together these resources offer an overview for students and practitioners of public humanities scholarship creating an accessible vocabulary rooted in the practices that have so advanced academic and community life Although drawing on case studies from the US these examples offer perspectives and insights relevant to public humanities around the world This book will be of interest to anyone working within the public humanities or wanting to make their work public and engage with wider communities
