

Cost of new plant and equipment: \$14,800,000
Shipping and installation costs: \$200,000
Unit sales:

Year	Units Sold
1	70,000
2	120,000
3	120,000
4	80,000
5	70,000

Sales price per unit: \$300/unit in years 1 through 4, \$250/unit in year 5
Variable cost per unit: \$140/unit
Annual fixed costs: \$700,000

Working-capital requirements: There will be an initial working capital requirement of \$200,000 to get production started. For each year, the total investment in net working capital will be equal to 10 percent of the dollar value of sales for that year. Thus, the investment in working capital will increase during years 1 through 3, then decrease in year 4. Finally, all working capital is liquidated at the termination of the project at the end of year 5.

The depreciation method: Use the simplified straight-line method over 5 years. It is assumed that the plant and equipment will have no salvage value after 5 years.

State-Federal Overlapping in Cigarette Taxes United States. Advisory Commission on Intergovernmental Relations, 1964 **Agricultural Finance Outlook** , 1978 **Forest Landowners' Guide to the Federal Income Tax** Harry L. Haney, 2001 Set includes revised editions of some issues **Theory of Valuation** Sudipto Bhattacharya, George M. Constantinides, 2005 The first edition of Theory of Valuation is a collection of important papers in the field of theoretical financial economics published from 1973 to 1986 and original accompanying essays contributed by eminent researchers including Robert C Merton Edward C Prescott Stephen A Ross and Joseph E Stiglitz Since then with the perspective of major theoretical strides in the field the book has more than fulfilled its original expectations The realization that it remains today a compendium of classic articles and a must read for any serious student in theoretical financial economics has prompted the publication of a new edition This second edition presents a summary statement of significant research in theoretical financial economics for both the specialist and non specialist financial economist It also provides material for PhD level courses covering valuation theory and elective reading for advanced Master s and undergraduate courses In addition to reproducing the original contributions this edition includes the seminal paper by Edward C Prescott and Rajnish Mehra Recursive Competitive Equilibrium The Case of Homogeneous Households originally published in Econometrica in 1980 Design Handbook for Photovoltaic Power Systems: Simplified methods for utility interconnected systems , 1981 **Cost of Capital** Shannon P. Pratt, Roger J. Grabowski, 2010-11-04 Praise for Cost of Capital Fourth Edition This book is the most incisive and exhaustive treatment of this critical subject to date From the Foreword by Stephen P Lamb Esq Partner Paul Weiss Rifkind Wharton CEO Valuation Products and Services Editor in Chief Financial Valuation and Litigation Expert and President Financial Consulting Group The Fourth Edition of Cost of Capital continues to be a one stop shop for background and current thinking on the development and uses of rates of return on capital While it will have an appeal for a wide variety of constituents it should serve as required reading and as a reference volume for students of finance and practitioners of business valuation Readers will continue to find the volume to be a solid foundation for continued debate and research on the topic for many years to come Anthony V Aaron Americas Leader Quality and Risk Management Ernst Young Transaction Advisory Services **Accounting under IndAS: An Illustrative Manual** Santosh Maller, 2020-06-20 About the book Ind AS transition has resulted in high quality principles based globally comparable financial reporting of large Indian companies The transition not only impacted the financial results of companies but also caused far reaching consequential business impact Since last two years there have been several changes in Ind AS for example amendments in the revenue recognition standard and new leases standard has drastically changed the performance reporting in the balance sheet composition of companies Further certain Ind AS principles are implicitly complex for example the accounting for financial instruments acquisitions and business combinations are quite nuanced and can get difficult to apply without proper understanding

Towards this end this book attempts to provide insights and in depth analysis on interpretative issues and complex principles in the Ind AS standards Ind AS contains extensive presentation and disclosure requirements The relevant chapters extensively deal with these requirements with illustrative examples To simplify the reading experience the chapters include a brief easy to understand summary of the relevant standard followed by Frequently Asked Questions FAQs on the chapter Coronavirus COVID 19 has also resulted in widespread economic uncertainty and disruption of businesses There have been far reaching implications on financial reporting These circumstances would potentially present entities with several challenges when preparing their financial statements This Edition covers some of the key financial reporting implications by way of FAQs in related chapters that companies need to consider along with the possible approaches that they may consider to dealing with the same keeping in view the business objectives financial covenants and the accounting standards This book is intended to help the companies to identify Ind AS requirements that are relevant to them and evaluate various accounting policy choices available under Ind AS The disclosure related issues would be useful to benchmark with the Ind AS IFRS disclosures of major companies Currently there is limited literature of the Ind AS application issues This book endeavors to provide guidance on these issues The book would be an immensely useful referencer for professionals practitioners and corporates
