Box Office Update Returns:

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre stars, and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through filmmaking factors that research suggests impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms. *Focus On: 100 Most Popular 2010s Fantasy Films* Wikipedia contributors, *Focus On: 100 Most Popular American 3D Films* Wikipedia contributors, **Focus On: 100 Most Popular 2010s Comedy-drama Films** Wikipedia contributors, Wiley Revenue Recognition, + Website Joanne M. Kurosawa remains unchallenged as one of the century's greatest film directors. Through his long and distinguished career, he managed like very few others in the teeth of a huge and relentless industry to elevate each of his films to a distinctive level of art. His *Rashomon*, one of the best remembered and most talked of films in any language, was a revelation when it appeared in 1950 and did much to bring Japanese cinema to the world's attention. Kurosawa's films display an extraordinary breadth and an
