Death of the Artist William Deresiewicz,2020-07-28 A deeply researched warning about how the digital economy threatens artists lives and work the music writing and visual art that sustain our souls and societies from an award winning essayist and critic There are two stories you hear about earning a living as an artist in the digital age One comes from Silicon Valley There s never been a better time to be an artist it goes If you ve got a laptop you ve got a recording studio If you ve got an iPhone you ve got a movie camera And if production is cheap distribution is free it s called the Internet Everyone s an artist just tap your creativity and put your stuff out there The other comes from artists themselves Sure it goes you can put your stuff out there but who s going to pay you for it Everyone is not an artist Making art takes years of dedication and that requires a means of support If things don t change a lot of art will cease to be sustainable So which account is true Since people are still making a living as artists today how are they managing to do it William Deresiewicz a leading critic of the arts and of contemporary culture set out to answer those questions Based on interviews with artists of all kinds The Death of the Artist argues that we are in the midst of an epochal transformation If artists were artisans in the Renaissance bohemians in the nineteenth century and professionals in the twentieth a new paradigm is emerging in the digital age one that is changing our fundamental ideas about the nature of art and the role of the artist in society **Florida Law Review** ,2016-03 **The Times Index** ,2013-06 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement **WIPO Magazine** ,2012
