Informative Writing, Teacher Guide, Grades 9-12 PCG Education, 2016-06-02 Informative Writing Paths to College and Career Jossey Bass and Public Consulting Group Inc PCG are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences, the standards require Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. The Paths Writing Units: Argument Writing, Informative Writing, and Narrative Writing complement the full instructional program and can also be used independently, providing in-depth writing instruction to support all students in grades 9-12 in meeting grade-level standards. To emphasize the relationship between reading and writing, each Writing Unit includes accessible model texts that exemplify key elements of each text type and source texts that provide a topic for the unit writing assignment. Individual lessons guide students through the writing process, providing instruction on grammar and conventions and highlighting collaboration and reflection as key elements of effective writing. Students' final essays are assessed using a checklist developed by the class over the course of the unit. The organization and distinctive content of the model and source texts in each unit afford teachers the flexibility to implement each unit independently of the others and at any point during the curriculum. For example, a unit may be implemented to assess students' writing prior to implementation of the standard curriculum to scaffold writing instruction leading into a writing assessment or to support struggling writers by addressing gaps in skills as demonstrated in previous assessments. The Paths Writing Units provide teachers with invaluable opportunities to engage students as active participants in their own learning at every stage of the writing process and to customize instruction to meet the varying needs of all students. ABOUT PUBLIC CONSULTING GROUP Public Consulting Group works with schools, districts, and state education agencies to build their capacity for instructional and programmatic improvements. We provide curriculum development, coaching, professional development, and technical assistance services. Our work alongside educators and policy makers ensures effective implementation of both the Common Core State Standards and state-specific standards for college and career readiness. As the creators of the Paths ELA curriculum for grades 6-12, PCG provides a professional learning program that ensures the success of the curriculum. The program includes nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches.

The Streaming Media Guide Michael D'Oliveiro, 2019-06-03 Streaming media has irreversibly revolutionized the ways in which media is transmitted and consumed. Most of us engage with streaming media on a daily basis via platforms that deliver our entertainment. Spotify, YouTube, and Netflix are new brands

which many of us engage with daily for our information and entertainment It has created upheaval in the entire value chain and wiped out industries slow to adapt to it like the video store rental chain And it continues to evolve Streaming media is transforming business communications in myriad ways and it is becoming almost as crucial for project managers and marketers to understand streaming technology as it is for media professionals The Streaming Media Guide demystifies the technology and features behind a successful streaming media service especially in the context of how it is used by broadcasters and other media organisations Common terms and systems being used in this space are presented and defined simply and clearly for non technical readers Best practice examples from Michael D Oliveiro s experiences demonstrate how this technology can be successfully implemented This book equips any media professional with the most basic of traditional media knowledge to enable confident conversations in the typical media organisation they work in For technology based graduates or dedicated broadcast professional seeking to refresh their understanding this book provides enough information to form a solid foundation for day to day work Finally for leaders in cross functional senior management matrices information is provided to enable you to understand and exploit streaming media capabilities as a business This will be the ultimate reference source guaranteed to be bedside reading for anyone serious about using streaming media
