problems have a common cause monopoly Since 1922 MLB has benefited from a presumed exemption from the nation's antitrust laws It is the only top level professional baseball league in the country and each of its teams is assigned an exclusive territory Monopolies have market power which they use to derive higher returns misallocate resources and take advantage of consumers Major league baseball is no exception In May the Best Team Win Zimbalist provides a critical analysis of the baseball industry focusing on the abuses and inefficiencies that have plagued the game since the 1990s when franchise owners appointed their colleague Bud Selig as MLB's independent commissioner **Poker** A. Schell,2013-12-03 Tony Gwynn is the greatest hitter in the history of baseball That s the conclusion of this engaging and provocative analysis of baseball s all time best hitters Michael Schell challenges the traditional list of all time hitters which places Ty Cobb first Gwynn 16th and includes just 8 players whose prime came after 1960 Schell argues that the raw batting averages used as the list s basis should be adjusted to take into account that hitters played in different eras with different rules and in different ballparks He makes those adjustments and produces a new list of the best 100 hitters that will spark debate among baseball fans and statisticians everywhere Schell combines the two qualifications essential for a book like this He is a professional statistician applying his skills to cancer research and he has an encyclopedic knowledge of baseball He has wondered how to rank hitters since he was a boy growing up as a passionate Cincinnati Reds fan Over the years he has analyzed the most important factors including the relative difficulty of hitting in different ballparks the length of hitters careers the talent pool that players are drawn from and changes in the game that raised or lowered major league batting averages the introduction of the designated hitter and changes in the height and location of the pitcher s mound for example

Schell's study finally levels the playing field giving new credit to hitters who played in adverse conditions and downgrading others who faced fewer obstacles. His final ranking of players differs dramatically from the traditional list. Gwynn for example bumps Cobb to 2nd place. Rod Carew rises from 28th to 3rd. Babe Ruth drops from 9th to 16th and Willie Mays comes from off the list to rank 13th. Schell's list also gives relatively more credit to modern players containing 39 whose best days were after 1960. Using a fun conversational style the book presents a feast of stories and statistics about players, ballparks and teams all arranged so that calculations can be skipped by general readers but consulted by statisticians eager to follow Schell's methods or introduce their students to such basic concepts as mean, histogram, standard deviation, p value and regression. Baseball's All Time Best Hitters will shake up how baseball fans view the greatest heroes of America's national pastime.
