Kolb, 2018-03-27 Spans the relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment **Deadly Baggage** Al Sandine, 2015-08-11 In 1519 a few hundred Europeans led by Hernan Cortes sailed from Cuba to the Mexican mainland where they encountered representatives of the Aztec Empire Their Iberian history culture and religion and their experience in the Greater Antilles made conquest and riches the aim of these adventurers They regarded themselves as heroes in a romantic crusade of good against evil Each member of the expedition sought to acquire precious metals and to become a lord of enslaved native labor Their horses and steel swords aided by native disunity and susceptibility to Old World diseases ensured their success This analysis of the conquest of Mexico stands in contrast to previous narratives that either reduce the conquest to a contest between Cortes and Montezuma or describe a near miraculous victory of European ingenuity and Western values over Indian superstition and savagery The author re frames the clash of civilizations in New World prehistory that left inhabitants at a disadvantage More Harm Than Good Alan ZELICOFF, Michael BELLOMO, 2008-04-30 Is the treatment we're getting really what we need *Shifting Positionalities* Aaron Tobler, María Amelia Viteri, 2009-05-27 The local level and international contributors of Shifting Positionalities encompass particular common themes through in depth social science research in an effort to understand the meanings of the reformulation of state discourses and practices in this post 9 11 era Current conjunctions between sexual racial and ethnic identities and the surveillance practices of those identities calls for a thorough examination of the multiple and usually unexpected meaning making practices adapted by individuals Far from being predictable the latter speaks to the possibility of individuals and communities utilizing techniques of actively resisting as opposed to passively embracing the policing of their daily lives Shifting Positionalities The Local and
