fashion to make the conception creation and consumption of fashionable dress and appearance less western centric Supporting this premise Hang Ups argues that purposeful and permanent change within the fashion industry and fashion education is more likely if it is understood how the contemporary industry became western centric To institute effective change it is necessary to revert to first principles and understand how the fashion industry developed into what it is today During a period when the concepts of fashion history and culture are being intensely scrutinized and with suggestions they are reaching their nadir the imperative to understand the extent to which they relate and facilitate the presentation of people s fashionable bodies is urgent Hang Ups explores the origins and consequences of the fashion industry s western centrism by focusing on nine binaries defined in the crucible of empire that continue to be sites of negotiation as the west s traditions and ideals are contested by different cultural perspectives and changing global realities Mobile Tech Report 2014 John R. Roberts, 2014-01-10 If you read technology news you ll notice it s not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I ve collected what happened in the industry in 2013 and make predictions on what will and won t happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I m surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It s often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets So I cover the horse race aspect of the business who s up who s down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore s Law but the real answer

is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won't and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I've divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix

Landscape - Tourism - Food Olaf Kühne, Liliana Dumitrache, 2025-06-16 Landscape and food there is hardly a form of tourism that is not oriented towards one or the other often both As a result of this close connection our anthology explores the different facets of these links Drawing on the concepts of Touristscapes and Foodscapes an international group of authors provide theoretical considerations as well as overviews of larger spatial units and local and thematic case studies What the contributions have in common is their focus on a synthetic landscape view of the topics dealt with ranging from the investigation of post socialist material substrates for the development of current touristscapes and foodscapes to the touristic use of socialist heritage and phenomena of dark tourism to the development of gastronomic offers and their significance for the construction of identities but also the staging of places for social media contexts Contributions from authors particularly from the fields of geography economics and sociology highlight the diversity of perspectives on the rapidly developing research field of landscape food and tourism
