Communication and Sport Michael L. Butterworth, 2021-07-19 Sport is a universal feature of global popular culture. It shapes our identities, affects our relationships and defines our communities. It also influences our consumption habits, represents our cultures and dramatizes our politics. In other words, sport is among the most prominent vehicles for communication available in daily life. Nevertheless, only recently has it begun to receive robust attention in the discipline of communication studies. The handbook of Communication and Sport attends to the recent and rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry. The book attempts to capture a full range of methods, theories and topics that have come to define the subfield of communication and sport or sports communication. It does so by emphasizing four primary features. First, it foregrounds communication as central to the study of sport. This emphasis helps to distinguish the book from collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus, in addition to studies of media effects, mediatization, media framing and more, readers will also engage with studies in interpersonal, intercultural, organizational and rhetorical communication. Second, the handbook presents an array of methods, theories and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus, readers will benefit from empirical, interpretive and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the handbook of Communication and Sport includes a broad range of scholars from around the world. It is therefore neither European nor North American in its primary focus. In addition, the book includes contributors from commonly under-represented regions in Asia, Africa and South America. Fourth, the handbook aims to account for both historical trajectories and contemporary areas of interest. In this way, it covers the central topics, debates and perspectives from the past and also suggests continued and emerging pathways for the future. Collectively, the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available.

*The Sports Strategist* Irving Rein PhD, Ben Shields, Adam Grossman, 2014-08-01 Today's high-performance sports business is more complex than ever before and presents new challenges to the industry at all levels. Sports organizations are fighting hard for the money and engagement of fans, media and sponsors while facing unprecedented competition both domestically and internationally. The cost of doing business continues to rise while traditional revenue streams are under increased pressure. In *The Sports Strategist: Developing Leaders for a High Performance Industry*, authors Irving Rein, Ben Shields and Adam Grossman demonstrate that relying too much on winning is a losing long-term strategy for dealing with these challenges. Instead, they argue that sports organizations must focus on identifying and maximizing key factors that, unlike winning, can be controlled and shaped. By building a more well-rounded business, sports strategists will position themselves and their organizations for sustainable success in the industry. Blending extensive industry experience and real-world case studies with their academic expertise, the authors arm students with the combination of the necessary tools to help them make better strategic decisions. Students will learn how to design identities, reinvigorate venue experiences, manage narratives and maximize new technology in today's connected world. In addition, readers will explore how to implement business analytics, build public support and apply ethics in decision-making. These techniques are vital to creating a successful sports organization that is ready to reap the benefits of winning when it does happen without having to suffer when it does not. The demand for innovative leaders who can address these issues and make tough decisions on which challenges to prioritize has never been greater. *The Sports*
