dozens of successful happy people she realized that they allocate their time differently than most of us Instead of letting the daily grind crowd out the important stuff they start by making sure there s time for the important stuff When plans go wrong and they run out of time only their lesser priorities suffer Vanderkam shows that with a little examination and prioritizing you ll find it is possible to sleep eight hours a night exercise five days a week take piano lessons and write a novel without giving up quality time for work family and other things that really matter
