Ai Overview Snapchat Top:

Artificial Intelligence Applications and Innovations Ilias Maglogiannis, Lazaros Iliadis, Elias Pimenidis, 2020-05-29 This 2 volume set of IFIP AICT 583 and 584 constitutes the refereed proceedings of the 16th IFIP WG 12.5 International Conference on Artificial Intelligence Applications and Innovations AIAI 2020 held in Neos Marmaras Greece in June 2020. The 70 full papers and 5 short papers presented were carefully reviewed and selected from 149 submissions. They cover a broad range of topics related to technical, legal and ethical aspects of artificial intelligence systems and their applications and are organized in the following sections: Part I: classification, clustering, unsupervised learning, analytics, image processing, learning algorithms, neural network modeling, object tracking, object detection systems, ontologies, AI and sentiment analysis, recommender systems; Part II: AI ethics, law, AI constraints, deep learning, LSTM, fuzzy algebra, fuzzy systems, machine learning, medical health systems and natural language. The conference was held virtually due to the COVID-19 pandemic. Artificial Intelligence, Strategic Communicators and Activism Lukasz Swiatek, Marina Vujnovic, Chris Galloway, Dean Kruckeberg, 2023-09-09 In a world that is increasingly wary of artificial intelligence AI, this book explores the pressing need for strategic communicators to move away from being advocates for AI and move towards a more critical activist role that enables them to counter AI-driven threats to communities and relationships. AI is contributing to inequality, misinformation and environmental damage among other problems. This book argues that strategic communicators are uniquely placed to help counter AI-driven challenges because of their skills in relationship building and their ability to craft and deliver messages effectively. By discussing the different professional activist approaches that communicators can take in relation to growing AI challenges, the book offers multiple perspectives that will help to build knowledge in diverse settings and develop practice, especially in community and activist strategic communication. Research-based and combining theory with practice, this thought-provoking book will be welcomed by strategic communication scholars and practitioners alike eager to develop a critical approach to the challenges surrounding AI.
