Monetizing Innovation

Madhavan Ramanujam, Georg Tacke, 2016-05-02

Surprising rules for successful monetization. Innovation is the most important driver of growth. Today more than ever, companies need to innovate to survive. But successful innovation, measured in dollars and cents, is a very hard target to hit. Companies obsess over being creative and innovative and spend significant time and expense in designing and building products yet struggle to monetize them. 72% of innovations fail to meet their financial targets or fail entirely. Many companies have come to accept that a high failure rate and the billions of dollars lost annually is just the cost of doing business.

Monetizing Innovations argues that this is tragic, wasteful, and wrong. Radically improving the odds that your innovation will succeed is just a matter of removing the guesswork. That happens when you put customer demand and willingness to pay in the driver seat when you design the product around the price. It's a new paradigm and that opens the door to true game change. You can stop hoping to monetize and start knowing that you will.

The authors at Simon Kucher know what they're talking about. As the world's premier pricing and monetization consulting services company with 800 professionals in 30 cities around the globe, they have helped clients ranging from massive pharmaceuticals to fast-growing startups find success. In **Monetizing Innovation**, they distill the lessons of thirty years and over 10,000 projects into a practical, nine-step approach. Whether you are a CEO, executive, leadership, or part of the team responsible for innovation and new product development, this book is for you, with special sections and checklist-driven summaries to make monetizing innovation part of your company's DNA. Illustrative case studies show how some of the world's best innovative companies like LinkedIn, Uber, Porsche, Optimizely, Draeger, Swarovski, and big pharmaceutical companies have used principles outlined in this book. A direct challenge to the status quo "spray and pray" style of innovation, **Monetizing Innovation** presents a practical approach that can be adopted by any organization in any industry.
