The Impact Equation Chris Brogan, Julien Stanwell Smith, 2012-10-25 Anyone can write a blog post but not everyone can get it liked thirty five thousand times and not everyone can get seventy five thousand subscribers But the reason we ve done these things isn t because we re special It s because we tried and failed the same way you learn to ride a bike We tried again and again and now we have an idea how to get from point A to point B faster because

of it Three short years ago when Chris Brogan and Julien Smith wrote their bestseller *Trust Agents* being interesting and human on the Web was enough to build a significant audience But now everybody has a platform The problem is that most of them are just making noise In *The Impact Equation* Brogan and Smith show that to make people truly care about what you have to say you need more than just a good idea trust among your audience or a certain number of followers You need a potent mix of all of the above and more Use the Impact Equation to figure out what you're doing right and wrong Apply it to a blog a tweet a video or a mainstream media advertising campaign Use it to explain why a feature in a national newspaper that reaches millions might have less impact than a blog post that reaches a thousand passionate subscribers Consider the phenomenally successful British singer Adele For most musicians onstage banter basically consists of yelling Hello Cleveland But Adele connects with her audience pausing between songs to discuss a falling out with her friends or the drama of a break up Each of these moments comes off as if she were talking directly with you and you can easily relate Adele has Impact As the traditional channels for marketing selling and influencing disappear and more people interact mainly online the very nature of attention is changing The Impact Equation will give you the tools and metrics that guarantee your message will be heard

Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or

whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory Designing for Democracy provides blueprints for democracy in a digital age *Malort* Josh Noel,2024-09-03 As I am someone who has grown to actually like Mal rt you may doubt my taste But Josh Noel s exploration of this most maligned spirit is funny fascinating and surprisingly delicious John Hodgman comedian and author of Medallion Status Mal rt may be the worst thing you ll ever taste Known primarily for its intense bitterness the infamous Chicago liqueur has been compared to a forest fire if the forest was made of earwax Yet lurking in the horror and the mockery lies the truth of Mal rt we keep going back for more For nearly a hundred years we ve gone back Jeppson s Mal rt could have died a hundred deaths in that time Its survival wasn t always a given It also was no accident There was one man s dogged persistence One woman s patience and dedication There were cultural shifts and fortunate timing that helped transform a drink rooted in centuries old Swedish tradition into the American sensation it is today Mal rt is a story of love relationships and how one generation finds meaning where generations before did not Such transformations happen in art in history and in food and it happened to Jeppson s Mal rt Author and beer expert Josh Noel unpacks a uniquely American tale equal parts culture business and personal relationships involving secret love federal prison a David vs Goliath court battle and ultimately the 2018 sale of Jeppson s Mal rt which made Pat Gabelick a 75 year old Chicago woman who spent much of her life as a legal secretary into an unlikely millionaire Mal rt isn t just the story of one brazen liquor it is the story of modern tastes and cultural shifts Advances in Information Retrieval Jaap Kamps,Lorraine Goeuriot,Fabio Crestani,Maria Maistro,Hideo Joho,Brian Davis,Cathal Gurrin,Udo Kruschwitz,Annalina Caputo,2023-03-16 The three volume set LNCS 13980 13981 and 13982 constitutes the refereed proceedings of the 45th European Conference on IR Research ECIR 2023 held in Dublin Ireland during April 2 6 2023 The 65 full papers 41 short papers 19 demonstration papers and 12 reproducibility papers 10 doctoral consortium papers were carefully reviewed and selected from 489 submissions The accepted papers cover the state of the art in information retrieval focusing on user aspects system and foundational aspects machine learning applications evaluation new social and technical challenges and other topics of direct or indirect relevance to search Invincible #93 Robert Kirkman,2012-07-04 More secrets about Robot s and Monster Girl s time spent in the Flaxan Dimension are revealed Meanwhile in the present things go to hell and the new Invincible has to prove if he s worthy of the mantle in the face of INVASION **New Directions in Second Language Pragmatics** J.
