The Internet Is for Cats Jessica Maddox, 2022-10-14 LOL cats Grumpy Cat Dog rating Twitter Pet Instagram accounts It s generally understood the internet is for pictures of cute cats and dogs and otters and pandas But what motivates people to make and share these images and how do they relate to other online social practices The Internet is for Cats examines how animal images are employed to create a lighter more playful mood uniting users within online spaces that can otherwise easily become fractious and toxic Placing today s pet videos photos and memes within a longer history of mediated animal images communication scholar Jessica Maddox also considers the factors that make them unique She explores the roles that animals play within online economies of cuteness and attention as well as the ways that animal memes and videos respond to common experiences of life under neoliberalism Conducting a rich digital ethnography Maddox combines observations and textual analysis with extensive interviews of the people who create post and share animal media including TikTok influencers seeking to make their pets famous activists tweeting about wildlife conservation and Redditors upvoting every cute cat photo The Internet is for Cats will leave you with a new appreciation for the human social practices behind the animal images you encounter online

Fringes Ben Mercer, 2021-07-24 Updated edition of the 1 Amazon Bestseller LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR PRIZE 2020 Sports books tend to detail extraordinary achievements triumphs against the odds or commemorate World Cup winning captains This book does not do that For many playing professional sport is the Dream Job Few manage it very few make it to the top and for the rest life is very different This is their story In Fringes Ben Mercer invites you to witness life at the outer edges of professional rugby This is a first hand account of what life is like as a journeyman professional athlete You play but to the wider public you don t exist You earn but you don t drive a flash car You sometimes pack out a stadium but sometimes you play in a deserted park

This is the story for the majority of sports professionals Only the minority taste the top only one person gets to lift the cup or win the medal only 15 get to play for England at any one time For the rest that s not the case Ben Mercer is a former professional rugby player who after becoming disillusioned and uninspired plying his trade in the English Second Division accepted an offer out of the blue to go to France and do something different help an amateur team turn professional This is a first hand account of what life is like in the lower reaches of professional sport where your employment status is as precarious as your health and barely anyone will know your name It s about how it feels to live year to year with teammates constantly on the move It s about how professionalism irreversibly changes the French club Stade Rouennais as they move up the divisions about the tension between progress and identity in a rugby team It s also about how it feels to actually be out there on the field how it feels to occasionally do something extraordinary and how it feels when this is no longer enough for you to make the sacrifices that you need to make to keep playing There s no ghostwriting it s an unmitigated meditation on how it feels and what it means to play rugby for a living to dedicate yourself to an uncompromising but occasionally beautiful game If you ve wanted to know what life is really like as a professional athlete on the Fringes away from the glitz and glamour of the international game then look no further *Humans, Horses and Events Management* Katherine

Dashper, Guðrún Helgadóttir, Ingibjörg Sigurðardóttir, 2021-03-12 Horses are perhaps the most common non human animal to feature in planned events but although there is considerable research on equestrian sport there is virtually none on equestrian events This book begins to address this gap using the National Championships of the Icelandic Horse as an extended case study to explain in depth the process of managing an event as well as the larger theoretical implications of events management Drawing on diverse viewpoints and theoretical perspectives the book draws wider comparisons to connect events management to larger themes in the social sciences such as human animal relations nationalism place branding event impacts event experience and inclusion and exclusion The book is a contribution to two fields In relation to human animal studies it focuses on how the Icelandic horse breed is marketed and celebrated through top tier competition whereas from an events management perspective it considers the role of the event in community building the practical and theoretical aspects of running a sustainable equestrian event and the issues that arise in multispecies event contexts Big

The Digital City Germaine R. Halegoua,2020-01-21 Shows

how digital media connects people to their lived environments Every day millions of people turn to small handheld screens to search for their destinations and to seek recommendations for places to visit They may share texts or images of themselves and these places en route or after their journey is complete We don't consciously reflect on these activities and probably don't associate these practices with constructing a sense of place Critics have argued that digital media alienates users from space and place but this book argues that the exact opposite is true that we habitually use digital technologies to re-embed ourselves within urban environments The Digital City advocates for the need to rethink our everyday interactions with digital infrastructures navigation technologies and social media as we move through the world Drawing on five case studies from global and mid-sized cities to illustrate the concept of re-placing Germaine R Haleboua shows how different populations employ urban broadband networks social and locative media platforms digital navigation smart cities and creative placemaking initiatives to turn urban spaces into places with deep meanings and emotional attachments Through timely narratives of everyday urban life Haleboua argues that people use digital media to create a unique sense of place within rapidly changing urban environments and that a sense of place is integral to understanding contemporary relationships with digital media
