Determinants of Minority Mental Health and Wellness Sana Loue, Martha Sajatovic, 2008-12-19 The United States is experiencing a dramatic shift in demographics with minorities comprising a rapidly growing proportion of the population It is anticipated that this will likely lead to substantial changes in previously established values needs and priorities of the population including health and mental health for individuals families and society at large This volume focuses on determinants of minority mental health and wellness This emphasis necessarily raises the question of just who is a minority and how is minority to be defined The term has been defined in any number of ways Wirth 1945 p 347 offered one of the earliest definitions of minority We may define a minority as a group of people who because of their physical or cultural characteristics are singled out from the others in the society in which they live for differential and unequal treatment and who therefore regard themselves as objects of collective

discrimination The existence of a minority in a society implies the existence of a corresponding dominant group enjoying higher social status and greater privileges
