Managing the New Tools in K-12 Teaching and

Learning Jerome A. Schulz, 2018-02-02 *Managing the New Tools in K 12 Teaching and Learning* How Technology Can Enable School Improvement is about how to manage technology for learning at the district and school levels. It provides an overview of the components of learning technology: these include student devices, networking software, productivity toolkits, electronic curricula, and resources, and data system infrastructure. And it discusses how we can manage our technology efforts more effectively to help our students attain the benefits of this technology. The book concludes with case studies of how this is being done at pioneering districts. We are now at a tipping point in implementing learning technology on a larger scale. This is happening very quickly. Historically, learning technology was driven by a strategy of technology integration where we called on individual teachers to each determine how to use technology in their classes and make changes in their own ways of working. But to successfully implement technology on the scale we need requires top down as well as bottom up efforts. *Managing the New Tools in K 12 Teaching and Learning* focuses on how districts and schools can now use technology to bring about the big improvements in learning we are all striving for.

Tamara's Journey Through Trials and Tears Tamara Rivera, 2024-01-05 *About the Book* When a child asks "Why am I a girl" or "What makes me a boy" most parents might answer "Because God made you that way and that is the end of it." But that is far from reality, and in this book you will learn that gender as we know today is not what you're assigned at birth but what is in the composition of your brain. On a journey to be recognized and respected by everyone as a transgender woman, the author's journal entries paint a picture of her experiences on this path. *Tamara's Journey Through Trial and Tears* shares the highs and lows, successes and struggles, kindness and cruelty of her transformation as she takes command of her true place in this world.

About the Author Today she is Tamara Rivera, 24, and is always working to stay in touch with the transgender community. She meets with local groups of transgender people for discussions and to build relationships and follows groups through Meetup and on Facebook where she has well over 2,000 followers, 95 percent of which are women who enjoy the positive inspiration she offers. Forced to leave school as a teenager to support her siblings after their father left, Rivera never lost her interests in space exploration and technology and still reads and watches YouTube videos on the subjects as well as works in the technology field. She also creates nail art, has a group page on Facebook, and has sold some press-on nail packages, hoping to make this a successful business someday. Rivera maintains a close relationship with her ex-spouse and children.
