College Rankings Deal:

The Global Academic Rankings Game Maria Yudkevich, Philip G. Altbach, Laura E. Rumbley, 2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia Chile China Germany Malaysia the Netherlands Poland Russia Turkey the United Kingdom and the United States The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts

University Rankings, Diversity, and the New Landscape of Higher Education, 2019-02-18 University rankings are a relatively new phenomenon in higher education Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear rankings attempting to measure university performance beyond national borders No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world This book is written as part of the effort to better understand rankings and their effects on higher education A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector

Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact

The Top American Research Universities, 2013 [World University Rankings and the Future of Higher Education](#) Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of

Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond The Impact of Higher Education Ranking Systems on Universities Kevin Downing, Petrus Johannes

Loock, Sarah Gravett, 2021-04-05 This book written by three generations of rankings academics with considerable experience from three very different regions of the globe lifts the lid on the real impact of higher education ranking systems HERS on universities and their stakeholders It critically analyses the criteria that make up the Big Three global ranking systems and using interviews with senior administrators academics and managers discusses their impact on universities from four very different continents Higher education continues to be dominated by a reputational hierarchy of institutions that sustains and is reinforced by HERS Despite all the opinions and arguments about the legitimacy of the rankings as a construct it seems experts agree that they are here to stay The question therefore seems to be less about whether or not universities should be compared and ranked but the manner in which this is undertaken Delivering a fresh perspective on global rankings this book summarizes the development of HERS and provides a critical evaluation of the effects of HERS on four different major regions South Africa the Arab region South East Asia and Australia It will appeal to any academic student university administrator or governing body interested in or affected by global higher education ranking systems **America's Best**
