Mcnamara Language Testing:

Language Testing Timothy Francis McNamara, 2000-02-10 This book offers a succinct theoretical introduction to the basic concepts in language testing in a way that is easy to understand In the Japanese context this book is highly recommended for university faculty members involved in obtaining assessment literacy teachers who want to validate their exploratory teaching and testing or applied linguistics students new to the language testing field The book is divided into four main sections The first provides an overview of the principles of language testing The next contains short extracts from the testing literature with questions which stimulate further thinking Section 3 is a list of references with brief annotations and Section 4 a glossary of referenced testing terms

Language Testing Tim McNamara, Carsten Roever, 2006-11-10 Winner of the SAGE ILTA Award for Best Book on Language Testing 2009 This volume focuses on the social aspects of language testing including assessment of socially situated language use and societal consequences of language tests The authors argue that traditional approaches to ensuring social fairness in tests go some way to addressing social concerns but a broader perspective is necessary to examine the functions of tests on a societal scale Considers these issues in relation to language assessment in oral proficiency interviews and to the assessment of second language pragmatics Argues that traditional approaches to ensuring social fairness in tests go some way to addressing social concerns but a broader perspective is necessary if we are to fully understand the social dimension of language assessment

Social Perspectives on Language Testing Carsten Roever, Gillian Wigglesworth, 2019 This Festschrift for Tim McNamara brings together papers on the social impact of language tests such as fairness and justice of test use testing of interaction and teachers and students views of language tests It also discusses the future of language testing with regard to validity the rise of social media and lingua franca language use

Fairness, Justice and Language Assessment Tim McNamara, Ute Knoch, 2019-02-21 This book has two goals each related to the validity of language assessment The first goal is to explore the difference between fairness and justice in language assessment The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment immigrant status citizenship and other rights The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics in particular the models collectively known as Rasch measurement This book will have an enormous impact on the field of language assessment Using Rasch analysis models to explore and identify sources of unfairness the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results A real strength of the book is that it guides readers through analytical techniques in an accessible way Dan Douglas Professor Emeritus Applied Linguistics Program Iowa State University

Language Testing Reconsidered Janna Fox, Mari

Wesche, Doreen Bayliss, Liying Cheng, Carolyn E. Turner, Christine Doe, 2007-06-01 *Language Testing Reconsidered* provides a critical update on major issues that have engaged the field of language testing since its inception. Anyone who is working in studying or teaching language testing should have a copy of this book. The information, discussions, and reflections offered within the volume address major developments within the field over the past decades, enlivened by current takes on these issues. The real value of this collection, however, lies in its consideration of the past as a means of defining the future agenda of language testing. Published in English. Measuring Second Language Performance Timothy Francis McNamara, 1996

The performance test has emerged as the central concept around language testing. McNamara examines recent developments and provides an important contribution to the ongoing debate. *Assessing Languages for Specific Purposes* Dan Douglas, 2000. This book is the first to examine implementation of tests for specific purposes. **Assessing English for Professional Purposes** Ute Knoch, Susy Macqueen, 2019-09-10. WINNER OF ILTA SAGE Best Book Award 2020. *Assessing English for Professional Purposes* provides a state-of-the-art account of the various kinds of language assessments used to determine people's abilities to function linguistically in the workplace. At a time when professional expertise is increasingly mobile and diverse, with highly trained professionals migrating across national boundaries to apply their skills in English-speaking settings, this book offers a renewed agenda for inquiry into language assessments for professional purposes. LAPP. Many of these experts work in high-risk environments where communication breakdowns can have serious consequences. This risk has been identified by governments and professional bodies who implement language tests for gate-keeping purposes. Through a sociological lens of risk and responsibility, this book provides a detailed overview of both foundational and recent literature in the field, offers conceptual tools for specific purpose assessment, including a socially oriented theory of construct development, theory and practice in key areas such as needs analysis, test development, validation, and policy. It significantly broadens the scope of the assessment of English for professional purposes to include a range of assessment practices for both professionals and laypeople in professional settings. *Assessing English for Professional Purposes* is key reading for researchers, graduate students, and practitioners working in the area of English for Specific Purposes assessment.

Inference and Generalizability in Applied Linguistics Micheline Chalhoub-Deville, Carol Chapelle, Patricia Duff, 2006-01-01. Concepts such as dependability, generalization, and inferences are dealt with implicitly or explicitly in any research undertaken in applied linguistics. This volume provides a well-balanced and cross-disciplinary perspective on how researchers conceptualize inferences about learner acquisition and performances, as well as dependability and generalizability of findings. The book is a collection of chapters by prominent researchers in applied linguistics working in diverse domains such as vocabulary, syntax, discourse analysis, SLA, and language testing. The goal of the book is to bring attention to these issues which underpin much of applied linguistics research and to highlight what is considered good practice so as to buttress confidence in the research claims made. The book represents current thinking on fundamental research concepts in applied

linguistics and can be used as a textbook in courses on research methodology in applied linguistics The book is also an excellent source of in depth analysis of research conceptualization for applied linguistics researchers and graduate students

Language Testing Timothy F. McNamara, 2007 **Measured Constructs** Cyril J. Weir, Ivana Vidaković, Evelina D. Galaczi, 2013-05-23 This volume establishes how English language constructs were measured in Cambridge English examinations over the period 1913 to 2012 An addition to the Studies in Language Testing series this volume provides an overview of English language testing over the last century with coverage of key theoretical and practical aspects of the assessment of reading listening writing and speaking skills It includes examples of the Cambridge English exams old and new and is the first volume to describe in a systematic way the different theoretical influences which have shaped the development of the constructs underlying Cambridge English exams in the last 100 years **Current Developments in Language Testing** Sarinee Anivan, 1991 The selection of papers on language testing includes Language Testing in the 1990s How Far Have We Come How Much Further Have We To Go J Charles Alderson Current Research Development in Language Testing John W Oller Jr The Difficulties of Difficulty Prompts in Writing Assessment Liz Hamp Lyons Sheila Prochnow The Validity of Writing Test Tasks John Read Affective Factors in the Assessment of Oral Interaction Gender and Status Don Porter Authenticity in Foreign Language Testing Peter Doye Evaluating Communicative Tests Keith Morrow Materials Based Tests How Well Do They Work Michael Milanovic Defining Language Ability The Criteria for Criteria Geoff Brindley The Role of Item Response Theory in Language Test Validation T F McNamara The International English Language Testing System IELTS Its Nature and Development D E Ingram A Comparative Analysis of Simulated and Direct Oral Proficiency Interviews Charles W Stansfield Southeast Asian Languages Proficiency Examinations James Dean Brown H Gary Cook Charles Lockhart Teresita Ramos Continuous Assessment in the Oral Communication Class Teacher Constructed Test Shanta Nair Venugopal and What We Can Do with Computerized Adaptive Testing And What We Cannot Do Michel Laurier MSE Fairness Issues in Educational Assessment Hossein Karami, 2018-02-02 Fairness and ethicality have been at the center of the debates on the appropriate use of educational tests since the 1960s Particularly in high stakes contexts it is clear that fairness should be a major concern to both the test developers and to those being tested given that the fairness of a test is so intertwined with its validity Fairness Issues in Educational Assessment aims to shed more light on the issue and bring to sight some of the ways in which test fairness can be addressed The contributions written by some of the most prominent figures in educational assessment address both theoretical and practical aspects of test fairness The wealth of ideas presented here will be valuable to novice researchers and help them appreciate both the joy and complexity of conducting fair educational measurement This book was originally published as a special issue of Educational Research and Evaluation **Interaction in Paired Oral Proficiency Assessment in Spanish** Ana Maria Ducasse, 2010 Defining the construct of interaction for paired assessment purposes has been difficult despite the evolution of our view of language to include the social perspective of co construction

and the fact that such discourse is increasingly taught and assessed In this volume three sequenced studies define interaction in paired oral assessment through the verbal protocols of learners of Spanish and their assessors Assessors then scale performances from videoed test performance data resulting in the development of an evidence based rating process which includes non verbal interpersonal communication interactive listening and interactional management
