Documentation for Rehabilitation Lori Quinn, James Gordon (Ed.D.), 2010 In this textbook Quinn and Gordon provide a general approach to documentation that can be adapted to different settings for physical therapy students and professionals. They emphasize the concept that clinical reasoning is reflected in documentation and vice versa and that documentation is a framework for clinical decision making. They cover each documentation component and examples and exercises that relate to areas such as rehabilitation, women's health, health and wellness, orthopedics, and acute care. This edition has been revised and expanded and includes new chapters on payment policy and coding, legal aspects, pediatrics, and computerized documentation and incorporates the International Classification of Functioning, Disability, and Health model. **American Book Publishing Record**, 2003 *Book Review Index*, 2006 Every 3rd issue is a quarterly cumulation. **Working with Children and Adolescents** Janet V. DeLany, Margaret J. Pendzick, 2009 This book is a valuable resource for directing the clinical reasoning of occupational therapy assistants as they prepare to provide services to children and adolescents. Divided into 4 sections, this book explains best practice occupational therapy services based on knowledge about occupations, occupation-based and non-occupation-based conceptual models, and the occupational development of children and adolescents. Through the use of multiple vignettes and case studies, the occupational therapy assistants learn how to implement interventions for children and adolescents who are experiencing specific health and learning challenges. Reflection and application questions at the end of each chapter reinforce text content. Occupational therapy assistant.

Stroke Rehabilitation Glen Gillen, Ann Burkhardt, 2004 This 2nd edition remains the only comprehensive evidence-based text on the Occupational Therapy management of the stroke patient. The book is based on the most up-to-date research on stroke rehabilitation and presents its content in a holistic fashion, combining aspects of background medical information, samples of functionally based evaluations, and treatment techniques and interventions. There are chapters on specific functional aspects of living after stroke, such as driving, sexuality, mobility, and gait, and self-care.
