Medievalisms: Time Mechanics David Hadbawnik,2022-06-06 This volume builds on recent scholarship on contemporary poetry in relation to medieval literature focusing on postmodern poets who work with the medieval in a variety of ways Such recent projects invert or queer the usual transactional nature of engagements with older forms of literature in which readers are asked to exchange some small measure of bewilderment at archaic language or forms for a sense of having experienced a medieval text The poets under consideration in this volume demand that readers grapple with the ways in which we are still medieval in other words the ways in which the questions posed by their medieval source material still reverberate and hold relevance for today s world They do so by challenging the primacy of present over past toppling the categories of old and new and suggesting new interpretive frameworks for contemporary and medieval poetry alike *Geoffrey Chaucer: A Very Short Introduction*
