The Social Media Wars Magdalena Karolak, 2014 This soon to be released monograph evaluates the role of the social media in strengthening and transforming

religious identities in the aftermath of the Arab Spring Focusing specifically on Bahrain this study assesses how the sectarian interpretation of the protests exacerbated social divisions and reverberated around the Middle East intensifying sectarian loyalties The social media contribute to negotiation and re construction of the collective identities of the groups involved in the 2011 uprising which is visible through their online manifestations THE ARAB SPRING the recent uprisings in the Middle East have been commonly called a Facebook Revolution due to the role of social media in gathering supporters organizing the movement as well as coordinating widespread protests While new scholarship on the subject has been already emerging there is a shortage of studies on the post Arab Spring influence of the social media and their role in identity transformation The shortage of monographs dealing with the subject of Bahrain is especially acute This study goes a long way in remedying the dearth of scholarly material analyzing cause and effect and focuses on the enormous role of social media as well as concomitant countermeasures

Climate Change and the Media Tammy Boyce, Justin Lewis, 2009 It is now more than a quarter of a century since the Intergovernmental Panel on Climate Change published their first comprehensive report on the dangers posed by anthropogenic global warming Over the last twenty five years the weight of evidence about the causes and consequences of climate change has become compelling The solutions are fairly simple we must switch to more sustainable and efficient forms of energy production And yet they remain elusive globally we produce significantly more greenhouse gases now than we did back in 1990 The sad truth is that this inaction has made climate change inevitable the only question

that remains is whether we can prevent it spiraling out of control How do we explain this colossal global failure The problem is political rather than scientific we know the risks and we know how to address them but we lack the political will to do so The media are pivotal in this equation they have the power to set the public and the political agenda Climate Change and the Media Volume 2 gathers contributions from a range of international scholars to explore the media s role in our understanding of the problem and our willingness to take action Combined these chapters explain how and why media coverage has to date fallen short in communicating both the science and the politics of climate change They also offer guidance about how the media might shift from being the problem to becoming part of the solution **Hastings Communications and**

Entertainment Law Journal (Comm/Ent). ,2015 **Rethinking Media Studies and the Digital Revolution** Liam French,2023-12-19 This book offers an important reconsideration of teaching learning and research in media studies and provides an overview of some of the key issues controversies and debates in the field It argues that in spite of critical interventions from scholars working both within and outside of media studies many academics have been slow to respond to the ongoing shifts and transformations in digital media in terms of curriculum design and course content The book critically engages with and reassesses issues and debates in teaching and learning in the field of media studies in light of wide scale shifts incurred by digital media and asks is media studies still relevant as a subject in its current form This book will be of interest to undergraduate and postgraduate students of media studies media education cultural studies and popular culture

Amerasia Journal ,2010 Fathering Across Diversity and Adversity: International Perspectives and Policy Interventions Andrea Doucet,Elihu Katz,Paddy Scannell,Rosalind Edwards,Frank F. Furstenberg,2009-07-15 Over the past few decades scholarly and policy interest in fatherhood and fathering has burgeoned in large part because of profound social changes in women s and men s lives in the last half of the twentieth century However this research has remained largely national in focus with little cross cultural dissemination of knowledge about fathering practices and supportive or constraining social policies This insightful volume presents a transatlantic perspective on fatherhood and fathering comparatively across nation states as well as in individual countries including the United States Canada United Kingdom and Norway Exploring the diversity of fatherhood it encompasses differences across social class race and ethnicity age and life course and varied household formations The articles examine young fathers separated and divorced fathers fathers from minority ethnic and immigrant groups working class fathers new fathers gay fathers and fathers of children with special needs Readers can gauge the different epochs of fathering over time and explore the tension that fathers may experience between being good financial providers and actively caring for their children Authored by leading figures in fathering research from North America Europe and Scandinavia the multilayered and intriguing articles in this volume of The ANNALS point toward the need for sustainable policy frameworks that enable fathers to be involved in their children s lives in ways that do not include biased assumptions about the expression of that involvement The Directory of Graduate Studies ,1998
