Suffering from Water Michael C. Ennis-McMillan, 2025-09-25 Suffering from Water invites readers to immerse themselves in the complexity of water insecurity

through the lens of a small town in Mexico The text examines how residents of the pueblo La Purificaci n Tepetitla experience suffering from water a phrase that locals use to communicate the pain and anxiety associated with inadequate household water supplies Ennis McMillan allows readers to develop a new cross cultural perspective on this major global health issue and to critically examine their own cultural assumptions about drinking water and health including individualistic consumer oriented ways of thinking about drinking water as a commodity rather than as a basic necessity if not a human right The people of La Purificaci n a pueblo of indigenous origin in central Mexico draw on their history of challenging external threats to local water resources Following customary law the community guides its water practices with indigenous traditions and local water officers use leveling practices to ensure that every household has access to running water These traditions link water use rights to religious fiestas and volunteer labor activities Not only do residents celebrate their pueblo originario they also cherish their customs which fosters health and well being for the entire pueblo The War Machine and Global Health

Merrill Singer,G. Derrick Hodge,2010-01-16 In the contemporary world war rivals infectious disease as a global cause of morbidity and mortality Since the end of World War II there have been at least 160 wars around the world with as many as 25 million and probably many more people killed most of them civilians Directly or indirectly war touches the lives of most people on the planet often with lasting and costly impact Framed by the holistic and ethnographically grounded theoretical perspective of critical medical anthropology and more broadly by the political economy of health this book of essays by leading medical anthropologists and other health social scientists carefully examines the global effects of war the war industry and the international weapons trade on human health and well being Further this book goes beyond offering a lively and readable account of a pressing health concern by critically analyzing the political and economic forces driving the war machine to inflict ever increasing levels of social suffering and loss of life *Essentials of Health, Culture, and Diversity*

Mark Cameron Edberg,2013 This book provides students of public health with tools and perspectives for understanding the relationship between culture and health Effective promotion programs cannot be realized without attention to the cultural context As part of the Essentials Public Health series this critical text introduces the concept of culture as a framework for understanding human behavior and health Back cover **Handbook on International Political Economy** Ralph

Pettman,2012 International political economy IPE is a highly complex discipline drawing not only from the fields of politics and economics but also those as varied as philosophy history and anthropology Now widely accepted as a key dimension to contemporary world affairs it is no longer possible to talk about international relations without talking about production and distribution finance and investment as well as consumption and trade To ensure that our understanding of these topics is relevant to today s world there is a constant need to revisit and challenge what is known about these topics Besides being a comprehensive account of international political economy for academic study this extensive collection also highlights salient issues that scholars analysts and state leaders are most concerned with in today s world Amongst these are issues

concerning the rise of China and India as new economic superpowers stability in the EU's political economy the viability of the existing multilateral system of global trade recent financial crises as well as the impact of globalisation and marketisation on the world's workers and our physical environment With contributions from prominent academics such as Susan K Sell George Washington University D C and Geoffrey Blainey Professor Emeritus University of Melbourne this volume makes for both a stimulating and thought provoking read

Something Dangerous Merrill Singer, 2005-06-03 This research based theory driven ethnographic account of the changing underground world of drug use and associated health effects covers the essential ground in a succinct authoritative fashion After a thorough outline of the nature and history of drug use dynamics the author assesses the role of youth in new drug use practices the impact of illicit drug distribution and the war on drugs and the public health risks of trends in drug use behavior Additionally it considers mechanisms for effective public health response to emergent health risks associated with changing drug use patterns Because Singer carefully explains all technical terms uses clarifying examples and avoids jargon readers will walk away from this volume with a deeper grasp of this social problem with appreciation for how change figures into drug use practices and with knowledge of key social cultural political economic criminal justice and health factors Ideal as a text in the undergraduate classroom its targeted focus and careful exploration of new concepts and theories also make it appealing for use at more advanced levels

Toward an Integrative Medicine Hans A. Baer, 2004-12-01 This book chronicles the transformation of the holistic health movement over the past three decades as it increasingly influences the delivery of health care in America In it he describes the battle for legitimacy by alternative therapeutic practitioners and the biomedical profession's increasing interest in the possibilities of a complementary and integrative medical system Baer examines a variety of professionalized and lay heterodox therapeutic systems including chiropractors naturopaths and acupuncturists homeopaths bodyworkers and lay midwives He shows ironically how the holistic movement may become more limited as it gains acceptance and becomes integrated into mainstream professional medicine This book is a valuable resource for instructors students professionals and others interested in public health issues health policy medical studies health economics medical anthropology and sociology

Re-Presenting Feminist Methodologies Kalpana Kannabiran, Padmini Swaminathan, 2017-03-16 This book tracks the trajectory of gender in the social sciences and humanities through an exploration of the challenges and contradictions that confront contemporary feminist analysis as well as future directions Drawing on research in India the essays in the volume engage with the subject in imaginative ways each one going beyond documenting the persistence of gender inequality instead raising new questions and dilemmas while unravelling the complexities of the terrain They also interrogate extant knowledge that has constructed women as agentless over the years incapable of contesting or transforming social orders by taking a close look at gendered decision making processes and outcomes sex for pleasure health care practices content and context of formal schooling or the developmental state that mainstreams gender Do existing feminist methodologies enable

the understanding of emerging themes as online sexual politics transnational surrogacy or masculinist anti feminist sensibilities The feminist methodologies delineated here will provide readers with a toolkit to assess the criticality of gender as well as its nuances The work foregrounds the importance of intersectionality and builds a case for context specific articulations of gender and societies that destabilize binary universals This volume will be useful to scholars and researchers across the disciplines of the social sciences and humanities especially gender studies women s studies feminism research methodology education sociology political science and public policy

Plagues and Epidemics D. Ann Herring, Alan C. Swedlund, 2020-06-15

Until recently plagues were thought to belong in the ancient past Now there are deep worries about global pandemics This book presents views from anthropology about this much publicized and complex problem The authors take us to places where epidemics are erupting waning or gone and to other places where they have not yet arrived but where a frightening story line is already in place They explore public health bureaucracies and political arenas where the power lies to make decisions about what is and is not an epidemic They look back into global history to uncover disease trends and look ahead to a future of expanding plagues within the context of climate change The chapters are written from a range of perspectives from the science of modeling epidemics to the social science of understanding them Patterns emerge when people are engulfed by diseases labeled as epidemics but which have the hallmarks of plague There are cycles of shame and blame stigma isolation of the sick fear of contagion and end of the world scenarios Plague it would seem is still among us

The River Is in Us Elizabeth Hoover, 2017-11-01 Winner of the Labriola Center American Indian National Book Award 2017 Mohawk midwife Katsi Cook lives in Akwesasne an indigenous community in upstate New York that is downwind and downstream from three Superfund sites For years she witnessed elevated rates of miscarriages birth defects and cancer in her town ultimately drawing connections between environmental contamination and these maladies When she brought her findings to environmental health researchers Cook sparked the United States first large scale community based participatory research project In *The River Is in Us* author Elizabeth Hoover takes us deep into this remarkable community that has partnered with scientists and developed grassroots programs to fight the contamination of its lands and reclaim its health and culture Through in depth research into archives newspapers and public meetings as well as numerous interviews with community members and scientists Hoover shows the exact efforts taken by Akwesasne s massive research project and the grassroots efforts to preserve the Native culture and lands She also documents how contaminants have altered tribal life including changes to the Mohawk fishing culture and the rise of diabetes in Akwesasne Featuring community members such as farmers health care providers area leaders and environmental specialists while rigorously evaluating the efficacy of tribal efforts to preserve its culture and protect its health *The River Is in Us* offers important lessons for improving environmental health research and health care plus detailed insights into the struggles and methods of indigenous groups This moving uplifting book is an essential read for anyone interested in Native Americans social justice and the pollutants contaminating

our food water and bodies **Complementary and Alternative Medicine** Caragh Brosnan, Pia Vuolanto, Jenny-Ann Brodin Danell, 2018-03-26 This book examines how complementary and alternative medicine CAM as knowledge philosophy and practice is constituted by and transformed through broader social developments Shifting the sociological focus away from CAM as a stable entity that elicits perceptions and experiences chapters explore the forms that CAM takes in different settings how global social transformations elicit varieties of CAM and how CAM philosophies and practices are co produced in the context of social change Through engagement with frameworks from Science and Technology Studies STS CAM is reconceptualised as a set of practices and knowledge making processes and opened up to new forms of analysis Part 1 of the book explores how and why boundaries within CAM and between CAM and other health practices are being constructed challenged and changed Part 2 asks how CAM as material practice is shaped by politics and regulation in a range of national settings Part 3 examines how evidence is being produced and used in CAM research and practice Including studies of CAM in Eastern and Western Europe Asia and North and South America the volume will appeal to postgraduate students researchers and health practitioners **Cultural Variations in Psychopathology** Sven Barnow, Nazli Balkir, 2012-01-01 Improving mental health care through culturally sensitive research and practice Culturally sensitive practice is a vital component of effective mental health care in our increasingly diverse societies Mental illnesses vary in prevalence between cultural and ethnic groups as do the meanings attached to them and people s responses to them The important implications of this interplay between culture and psychopathology for diagnosis and treatment are scrutinized and elucidated in this comprehensive and well organized book which uniquely looks at a range of practical examples involving various ethnic minority populations in North America and Europe Leading experts from around the world have integrated divergent topics into a systematic and clinically relevant volume Cultural Variations in Psychopathology From Research to Practice is an important resource for researchers and in particular for any mental health professional who works with ethnically diverse communities **Complementary Medicine in Australia and New Zealand** Hans Baer, 2015-07-17 In the late nineteenth century on the eve of the formation of Australia as a nation state in 1902 the Australian medical system could be best described as a pluralistic one in the sense that while regular medicine constituted the predominant medical system it was not clearly the dominant one in that regular physicians faced competition from a wide array of alternative practitioners As regular medicine increasingly assumed the guise of being scientific it evolved into biomedicine and developed a link with corporate and state interests in the early twentieth century in Australia as in other capitalist developed societies Relying upon state support Australian biomedicine has achieved dominance over alternative medical system such as homeopathy herbal medicine osteopathy chiropractic and naturopathy Various social forces particularly the development of the holistic health movement have served to challenge biomedical dominance in Australia like elsewhere What started out as a popular health movement in the early 1970s has evolved into the professionalized entity that is generally referred to as

complementary medicine in Australia as opposed to complementary and alternative medicine in the US and UK

Complementary medicine in Australia encompasses many medical systems and therapies Since the 1980s certain heterodox medical systems particularly chiropractic osteopathy acupuncture and Chinese medicine naturopathy Western herbalism and homeopathy have achieved considerable recognition from the Australian state either at the federal level or at the state and territorial levels Indeed the Australian state appears to have gone further than any other Anglophone country in terms of providing public funding for complementary medicine education Conversely it has committed a limited amount of funding for complementary medicine research compared to the United States

Midwives and Mothers Sheila Cosminsky, 2016-12-06

The World Health Organization is currently promoting a policy of replacing traditional or lay midwives in countries around the world As part of an effort to record the knowledge of local midwives before it is lost *Midwives and Mothers* explores birth illness death and survival on a Guatemalan sugar and coffee plantation or finca through the lives of two local midwives Do a Maria and her daughter Do a Siriaca and the women they have served over a forty year period By comparing the practices and beliefs of the mother and daughter Sheila Cosminsky shows the dynamics of the medicalization process and the contestation between the midwives and biomedical personnel as the latter try to impose their system as the authoritative one She discusses how the midwives syncretize integrate or reject elements from Mayan Spanish and biomedical systems The midwives story becomes a lens for understanding the impact of medicalization on people's lives and the ways in which women's bodies have become contested terrain between traditional and contemporary medical practices Cosminsky also makes recommendations for how ethno obstetric and biomedical systems may be accommodated articulated or integrated Finally she places the changes in the birthing system in the larger context of changes in the plantation system including the elimination of coffee growing which has made women traditionally the primary harvesters of coffee beans more economically dependent on men
