Literary Coaching - Guidelines for writing, publishing and disseminating Miguel D'Addario, 2018-04-08 Writing is a vocation born of a need of each person It is an inner manifestation a communicational expression be it artistic scientific or of another literary genre It is a property of the human being communication through writing This means that each one will do it in their own way and form in the same way that each reader will interpret the content of a book magazine or other in a different way understanding according to their own abilities and knowledge San Buenaventura de Bagnoregio wrote in the thirteenth century that there were four ways to make a book 1 Being a Scribe Scriptor Someone who writes the works of others without adding changing or removing anything from the original text 2 Being a Compiler Compiler Someone who writes works of others with additions that are not his also others 3 Being a Commentator Comentator Someone who writes the works of others and their own giving them the primary place to the works of others with clarifying aggregates 4 Being an Author Auctor Someone who writes his own works and others but giving the primary place to his writings and adding others to assert his own text Therefore a person who writes is in short an Author regardless of whether he has published his work or not And the difference lies in the legal nature that the company manages by identifying each work the ISBN This number makes up the legal nature of a publication and inserts this work in the international bibliographic bases it is the identity document of each book **Small Business Handbook** Steve Parks, 2012-12-27 Getting a business off the ground is only part of the challenge What every entrepreneur needs is a handbook to guide them through every stage of actually running their business from finance to marketing from sales to hiring and managing people The Small Business Handbook is THE essential reference for anybody who is starting a business It provides vital advice and guidance on all the day to day aspects of running your enterprise and also helps you plan your growth and exit strategy so that whatever happens you ll be ready to tackle it informed and prepared The accompanying CD contains a whole range of useful templates and essential documents for use in running your business and also features audio clips of successful entrepreneurs offering their tips and techniques for making your business really successful Unlike many small business guides Steve Parks is an entrepreneur with his own
