Meath History Society Interdisciplinary Essays:

Meath Arlene Crampsie, Francis Ludlow, William Nolan, 2015 **Four Killings** Myles Dungan, 2021-05-13 The story of a single family during the Irish Revolution Four Killings is a book about political murder and the powerful hunger for land and the savagery it can unleash A vivid and chilling narrative Confronts uncomfortable questions that still need answering Roy Foster Marries acute storytelling skills with scholarship fortified throughout by the author's wry sense of humour Michael Heney Narrative history told through a unique prism Irish Sunday Independent Dungan knows his history he also knows how to tell a story A gem of a book RT Culture Sober and intelligent Dungan does a fine job of showing that little people can make history too Business Post Myles Dungan's family was involved in four violent deaths between 1915 and 1922 Jack Clinton an immigrant small farmer from County Meath was murdered in the remote and lawless Arizona territory by a powerful rancher's hired assassin three more died in Ireland and each death is compellingly reconstructed in this extraordinary book What unites these deaths is the violence that engulfed Ireland during the war of independence but also the passions unleashed by arguments over the ownership of the soil In focusing on one family Four Killings offers an original perspective on this still controversial period a prism through which the moral and personal costs of violence and the elemental conflict over land come alive in surprising ways The Cambridge History of Ireland: Volume 1, 600-1550 Brendan Smith, 2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day Interspersing narrative with detailed analysis of key themes the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience The contributors are leading experts in their fields and present their original interpretations in a fresh and accessible manner New perspectives are offered on the politics artistic culture religious beliefs and practices social organisation and economic activity that prevailed on the island in these centuries At each turn the question is asked to what extent were these developments unique to Ireland The openness of Ireland to outside influences and its capacity to influence the world beyond its shores are recurring themes Underpinning the book is a comparative outward looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe **Holy Wells of Ireland** Celeste Ray, Finbar McCormick, 2023-09-19 The storied landscapes of Ireland are dotted with holy wells hallowed springs pools ponds and lakes credited with curative powers and often associated with Catholic and indigenous saints While many of these sites have been recently lost to development others are visited daily for devotions and remain the focus of annual community gatherings Encouraging both their use and protection Holy Wells of Ireland delves into these irreplaceable resources of spiritual archaeological and historical significance Reserves of localized spiritual practices holy wells are also ecosystems in themselves and provide habitats for rare and culturally meaningful flora and fauna The shift toward a post Catholic Ireland has prompted renewed interest in holy wells as popular domains with organic faith traditions Of the roughly 3 000 holy wells documented across Ireland some attract international pilgrims and others are

stewarded by a single family Featuring 140 color images this remarkable volume shares the transdisciplinary work of contributors who study these wells through the overlapping lenses of anthropology archaeology art history biomedicine folklore geography history and hydrology Braiding community perspectives with those of scholars across academia Holy Wells of Ireland considers Irish holy wells as a resilient feature of ever evolving Irish Christianity as inspiration to other faith traditions as places of pilgrimage and healing and as threatened biocultural resources

Onomastics in Interaction With Other Branches of Science. Volume 1. Keynote Lectures. Toponomastics Urszula Bijak, Paweł Swoboda, Justyna B. Walkowiak, 2023-12-21 Onomastics is an area of scholarly interest that has grown considerably in importance in recent years Consequently the 27th International Congress of Onomastic Sciences held in 2021 in Kraków Poland gathered scholars from all over the world active in all subfields of onomastic enquiry as well as those exploring the areas bordering on other disciplines of the humanities It thus became a venue for presenting state of the art research in the study of proper names proposing novel approaches and opening new vistas for future research The present work is the first of the three volumes of conference proceedings that were the fruit of the congress Devoted to place naming it contains 33 contributions by 43 scholars The language of most of the texts is English though there are also two papers in German and another two in Russian The topics range from purely theoretical issues to narrowly focused case studies The toponyms studied represent a vast variety of types including the names of countries districts counties or municipalities villages and other settlements as well as urbanonyms but also hydronyms nesonyms or diverse anoikononyms Some toponyms are examined synchronically whereas others are viewed in a diachronic perspective The status of particular place names varies too from those that have existed since time immemorial such as river names to those established relatively recently in human history as exemplified by the names of bus stops Many contributions have been prepared using time honoured methods of data collection such as fieldwork but digital onomastics has clearly gained a permanent foothold as well as evidenced by a substantial body of research in this area True to the inherently interdisciplinary character of onomastics and in line with the underlying motif of the congress which underscores the interaction of the study of proper names with other branches of science researchers explore the interface of onomastics and an extensive array of disciplines including though not limited to cognitive studies dialectology phonetics and phonology sociolinguistics anthropology history historical linguistics postcolonial studies administration and policy studies and even geology The toponyms studied are gathered from all over Europe including Belarus the Czech Republic Finland Germany Greece Hungary Ireland Italy Norway Poland Portugal Slovakia Spain Sweden Ukraine the United Kingdom but also from countries on other continents such as China Egypt India Morocco New Zealand Russia or Tanzania The book is a must not only for onomasticians but also for researchers in related disciplines ranging from history via human geography or philosophy of language to social studies However professionals active in naming will find it useful as well since it provides a much needed supranational perspective and enables cross cultural comparisons
