Trapped in America's Safety Net Andrea Louise Campbell, 2014-09-02 A remarkable look at the flaws of the social safety net through one family's personal tragedy and the Catch 22 financial disaster that followed Deborah A Stone author of Policy Paradox When Andrea Louise Campbell's sister in law Marcella Wagner was run off the freeway by a hit and run driver she was seven and a half months pregnant She survived and miraculously the baby was born healthy But that's where the good news ends Marcella was left paralyzed from the chest down This accident was much more than just a physical and emotional tragedy Like so many Americans neither Marcella nor her husband Dave who worked for a small business had health insurance On the day of the accident she was on her way to class for the nursing program through which she hoped to secure one of the few remaining jobs in the area with the promise of employer provided insurance Instead the accident plunged the young family into the tangled web of means tested social assistance As a social policy scholar Campbell thought she knew a lot about means tested assistance programs What she quickly learned was that missing from most government manuals and scholarly analyses was an understanding of how these programs actually affect the lives of the people who depend on them Using Marcella and Dave's situation as a case in point she reveals the programs shortcomings in this book Because American safety net programs are designed for the poor the couple first had to spend down their assets and drop their income to near poverty level before qualifying for help What's more to remain eligible they'll have to stay under these strictures for the rest of their lives barred from doing many of the things middle class families are encouraged to do Save for retirement Build an emergency fund Take advantage of tax free college savings And while Marcella and Dave's story is tragic the financial precariousness they endured even before the accident is all too common in America where the prevalence of low income work and unequal access to education have generated vast and growing economic inequality The implementation of the ACA has cut the number of uninsured and underinsured and reduced some disparities in coverage but continues to leave too many people open to tremendous risk Behind the statistics and beyond the ideological battles are human beings whose lives are stunted by policies that purport to help them In showing how and why this happens Trapped in America's Safety Net offers a way to change it An engaging narrative account of how social assistance programs shape real people's lives Campbell is authoritative and scholarly yet warm and personal a rare combination one sees in the likes of Oliver Sacks and Barbara
