Media And Participation A Site Of Ideological Democratic Struggle:

The United Nations and Freedom of Expression and Information Tarlach McGonagle, Yvonne Donders, 2015-06-11
There are a multitude of UN legal instruments which pertain to the rights of freedom of expression and information and this book is the first to comprehensively map them and their function. It details the chequered history of both of these rights within the UN system and evaluates the suitability of the system for overcoming contemporary challenges and threats to the rights. Leading scholars address key issues such as how the rights to freedom of expression and information can come into conflict with other human rights and with public policy goals such as counter terrorism. The book's institutional focus comprises five international treaties: UNESCO and the UN Special Rapporteur on freedom of expression. Relevant for academics, lawyers, policy makers and civil society actors, it also examines how new communication technologies have prompted fresh thinking about the substance and scope of the rights to freedom of expression and information. *Critical Perspectives on Media, Power and Change* Ilija Tomanić Trivundža, Hannu Nieminen, Nico Carpentier, Josef Trappel, 2018-10-19

This book aims to feed into the critical debates about media power and change through the respectful inclusion of a wide variety of critical approaches and traditions. This diversity is simultaneously structured and balanced by a deeply shared set of concerns that are mobilised to defend core societal values including social justice, equality, fairness, care for the other and humanity. *Critical Perspectives on Media Power and Change* raises questions about how the omnipresent media can contribute to the materialisation of these core values and how it sometimes works against them. Rethinking social change, mediatization and regulations are thus significant issues explicitly addressed in this book. In addition, the authors show how the role of the critical media and communication scholar merits and requires self-reflection; critical voices matter but they also face structural limitations. This book was originally published as two special issues of *Javnost: The Public*.

The Routledge Companion to Digital Journalism Studies Scott A. Eldridge II, David Cheruiyot, Sandra Banjac, Joëlle Swart, 2024-12-16
This second edition of *The Routledge Companion to Digital Journalism Studies* offers a truly global and groundbreaking collection of essays addressing the key issues and debates shaping the field of digital journalism studies today. Journalism has arguably faced unprecedented disruption and reconceptualization since the first edition of this Companion was published. Questions over what role journalism and journalists play in society are pervasive and changes to platforms, products, practices and audiences are among the forces driving a new research agenda in the field. This newly reorganized second edition addresses developments in technologies, data infrastructures, algorithms and the businesses behind these technologies as well as the impact of such developments on the practice of digital journalism. Debates concerning the decline of public trust in journalism and the blurred distinctions between journalism and other forms of media and communication are also considered. The chapters outline the need for digital competence and literacy within journalism and introduce new methodological approaches including experimental and arts-based methods, computational methods and

collaborative work Comprising 54 original essays from distinguished academics across the globe this book showcases the rich diversity of work that continues to define the field of digital journalism studies and is an essential point of reference for students and researchers alike *Digital Media and the Dynamics of Civil Society* Maria Bakardjieva, Stina Bengtsson, Göran Bolin, Kjell Engelbrekt, 2021-10-18 This book advances the theoretical normative and practical understanding of civil society under the conditions of digital mediatization and in relation to a set of particular historical and geopolitical circumstances

Critique, Social Media and the Information Society Christian Fuchs, Marisol Sandoval, 2013-11-26 In times of global capitalist crisis we are witnessing a return of critique in the form of a surging interest in critical theories such as the critical political economy of Karl Marx and social rebellions as a reaction to the commodification and instrumentalization of everything On one hand there are overdrawn claims that social media Twitter Facebook YouTube etc have caused uproars in countries like Tunisia and Egypt On the other hand the question arises as to what actual role social media play in contemporary capitalism crisis rebellions the strengthening of the commons and the potential creation of participatory democracy The commodification of everything has resulted also in a commodification of the communication commons including Internet communication that is today largely commercial in character This book deals with the questions of what kind of society and what kind of Internet are desirable how capitalism power structures and social media are connected how political struggles are connected to social media what current developments of the Internet and society tell us about potential futures how an alternative Internet can look like and how a participatory commons based Internet and a co operative participatory sustainable information society can be achieved **The Routledge Encyclopedia of Citizen Media** Mona Baker, Bolette B.
