Media Bias In Presidential Election Evaluation Via Formal Measurement:

Economic Actors, Economic Behaviors, and Presidential Leadership C. Damien Arthur, 2014-07-22 There is considerable disagreement about whether the U S president has a direct and measurable influence over the economy The analysis presented in *Economic Actors Economic Behaviors and Presidential Leadership The Constrained Effects of Rhetoric* suggests that while presidents have increased their rhetoric regarding the economy they have not had much success in shaping it Considering this research Arthur argues that the president s decision to address the economy so often must stem from a symbolic placation or institutional necessity that is intended to comfort constituencies or somehow garner electoral advocacy from the party s base No other viable explanation exists given the lack of results presidents obtain from discussing the economy and their persistent determination to do so This discrepancy suggests that presidential rhetoric on the economy is at best a tool used to appear concerned to everyone and toe the party line to their base Arthur presents an overview of economic rhetoric from the presidential office that will be of interest to scholars of the economy and political communication

Political Election Debates William L. Benoit, 2013-09-20 Political debates are an important facet of modern election campaigns How politicians frame an argument how the audience perceives it and how the media decides to display it are key components in analyzing the outcome of a political debate and ultimately an election Drawing mainly on the functional theory of political campaign discourse William L Benoit examines a wide variety of debates not only in the United States but across the globe Because each phase of election offers new challenges specific attention is paid to how primary versus general and incumbency influence the content of political leaders debate practices Specifically the book delves into the history and nature of debates in various United States elections including presidential vice presidential senatorial gubernatorial and mayoral candidates Also examined are debates ranging from the United Kingdom to South Korea to Australia Benoit also employs the issues ownership theory and functional federalism theory as a deeper part of the analysis This book offers a critical examination and comprehensive overview of election debate theory

Unequal America Anthony DiMaggio, 2020-12-09 This book examines Americans and their beliefs about the class divide in the United States It argues that Americans beliefs about class and the economic divide develop through a multistep process Economic affluence influences the development of worldview measured in terms of ideology partisanship and self identified class consciousness Class consciousness in turn affects how people look at political and economic issues This book is intended for scholars and students at every level who study inequality from a political economic or sociological position along with general readers with a growing interest in and awareness of the effects of inequality on our democracy especially in the wake of the Covid 19 pandemic the resulting economic contraction and the protests over racial injustice erupting throughout the world in 2020

Persuasion in Society Jean G. Jones, Andi McClanahan, Joseph Sery, 2022-03-28 This fully updated fourth edition introduces readers to the rich tapestry of persuasive technique and scholarship interweaving perspectives from rhetoric critical theory and social science

and applying their insights to practical political social and business contexts This text examines current and classical theory through the lens of contemporary culture encouraging readers to explore the nature of persuasion and to understand its impact in their lives Employing a contemporary approach it draws from popular culture mass media social media advertising political campaigns and social movements to help readers become informed creators and consumers of persuasive messages Case studies show how and why people fall for persuasive messages demonstrating how persuasion works at a cognitive level This new edition includes extended treatment of the ethics of persuasion including opposing views on handling controversial issues in the college classroom a new chapter on propaganda and ideology and a greater focus on digital contexts and social media Discussion questions exercises and key terms are provided for each chapter This textbook will be a valuable tool for students of communication media studies politics psychology and business and advertising Online resources for instructors include PowerPoint slides and test bank

Media Bias in Presidential Election Coverage, 1948-2008 Dave

D'Alessio,2012 In Media Bias in Presidential Election Coverage 1948 2008 Dave D'Alessio employs meta analytic techniques to examine whether there are partisan biases in coverage of Presidential election campaigns in newspapers on TV and in the news magazines This study further analyses the four essential natures of news media as journalistic entities property businesses and political actors Aggregating the results of 99 previous studies D'Alessio scrutinizes bias claims in news media and why political candidates consistently

News on the Right Anthony Nadler,A.J. Bauer,2019-10-10 From the National Review to Breitbart from Fox News to Rush Limbaugh conservative news is an inescapable feature of modern politics Since the early days of mass communication right wing media producers have blended reporting with commentary narrating the news of the day from a perspective informed by conservative worldviews and partisanship News on the Right seeks to initiate a new interdisciplinary field of scholarly research focused on the study of right wing media and conservative news Editors Anthony Nadler and A J Bauer gather a range of voices presenting an interdisciplinary investigation into the practices and patterns of meaning making in the production circulation and consumption of conservative news Traversing journalism media and communication studies cultural studies history political science and sociology this volume utilizes a variety of qualitative and quantitative research methods to elucidate case studies of conservative news cultures in the US and UK Together these perspectives show that a fuller understanding of right wing media and its effects can be reached by treating these phenomena as deeply interwoven into many conservatives lives and political sensibilities

Reporting Elections Stephen Cushion,Richard Thomas,2018-03-02 How elections are reported has important implications for the health of democracy and informed citizenship But how informative are the news media during campaigns What kind of logic do they follow How well do they serve citizens e Based on original research as well as the most comprehensive assessment of election studies to date Cushion and Thomas examine how campaigns are reported in many advanced Western democracies In doing so they engage with debates about the mediatization of politics media systems information environments media ownership regulation

political news horserace journalism objectivity impartiality agenda setting and the relationship between media and democracy more generally Focusing on the most recent US and UK election campaigns they consider how the logic of election coverage could be rethought in ways that better serve the democratic needs of citizens Above all they argue that election reporting should be driven by a public logic where the agenda of voters takes centre stage in the campaign and the policies of respective political parties receive more airtime and independent scrutiny The book is essential reading for scholars and students in political communication and journalism studies political science media and communication studies

Media Bias in Presidential Election Coverage 1948-2008 David W. D'Alessio, 2012-03-22 Accusations of partisan bias in Presidential election coverage are suspect at best and self serving at worst They are generally supported by the methodology of instance confirmation tainted by the hostile media effect and based on simplistic visions of how the news media are organized Media Bias in Presidential Election Coverage 1948 2008 by Dave D Alessio is a revealing analysis that shows the news media have four essential natures as journalistic entities businesses political actors and property all of which can act to create news coverage biases in some cases in opposing directions By meta analyzing the results of 99 previous examinations of media coverage of Presidential elections from 1948 to 2008 D Alessio reveals that coverage has no aggregate partisan bias either way even though there are small biases in specific realms that are generally insubstantial Furthermore while publishers used to control coverage preferences this practice has become negligible in recent years Media Bias proves that at least in terms of Presidential election coverage The New York Times is not the most liberal paper in America and the Fox News channel is substantially more conservative in news coverage than the broadcast networks Finally Media Bias in Presidential Election Coverage 1948 2008 predicts that no amount of evidence will cause political candidates to cease complaining about bias because such accusations have both strategic potential in campaigns and an undeniable utility in ego defense *Library & Information Science Abstracts* ,2005 **Current Index to Journals in Education** ,1996

Sociological Abstracts Leo P. Chall,1999 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers Advertising Age ,1960 Includes articles about advertising campaigns agency appointments and government actions affecting advertising and marketing **The Europa World Year Book 2000** Publishe Europa,2000 This work provides access to statistics directory information and current analysis with detailed surveys of over 250 countries and territories and a comprehensive listing of over 1650 international organizations *Congressional Record* United States. Congress,1974 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States

1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **How the News Media Fail American Voters** Kenneth Dautrich, Thomas H. Hartley, 1999 It is often noted that the public is frustrated with the news media But what do American voters really think about how the media present political information While studies have examined how the news shapes opinions as well as what people respond to and remember this is the first book to provide an in depth analysis of how voters use and evaluate the news media in political elections and the impact these trends have on their use of the news Kenneth Dautrich and Thomas H Hartley performed a four wave national panel survey of voters during the 1996 presidential campaign They found that although voters are profoundly dissatisfied with the usefulness of news in helping them make decisions they are unlikely to stop using the news media or switch media from network news to public broadcasting for instance Thus the media have little incentive to adjust to the needs or wishes of voters Here is an important contribution to the debate about the responsibilities of the news media raging among pundits and policymakers

The Fox News Effect Stefano Della Vigna, Ethan Kaplan, 2006 Does media bias affect voting We address this question by looking at the entry of Fox News in cable markets and its impact on voting Between October 1996 and November 2000 the conservative Fox News Channel was introduced in the cable programming of 20 percent of US towns Fox News availability in 2000 appears to be largely idiosyncratic Using a data set of voting data for 9 256 towns we investigate if Republicans gained vote share in towns where Fox News entered the cable market by the year 2000 We find a significant effect of the introduction of Fox News on the vote share in Presidential elections between 1996 and 2000 Republicans gain 0.4 to 0.7 percentage points in the towns which broadcast Fox News The results are robust to town level controls district and county fixed effects and alternative specifications We also find a significant effect of Fox News on Senate vote share and on voter turnout Our estimates imply that Fox News convinced 3 to 8 percent of its viewers to vote Republican We interpret the results in light of a simple model of voter learning about media bias and about politician quality The Fox News effect could be a temporary learning effect for rational voters or a permanent effect for voters subject to non rational persuasion **Media Bias** Antonietta M. Hallet, 2009 **Evaluating Media Bias** Adam J. Schiffer, 2017-07-13 Media bias has been a hot button issue for several decades and it features prominently in the post 2016 political conversation Yet it receives only spotty treatment in existing materials aimed at political communication or introductory American politics courses Evaluating Media Bias is a brief supplemental resource that provides an academically informed but broadly accessible overview of the major concepts and controversies involving media bias Adam Schiffer explores the contours of the partisan bias debate before pivoting to real biases the patterns constraints and shortcomings plaguing American political news Media bias is more relevant than ever in the aftermath of the presidential election which launched a flurry of media criticism from scholars commentators and thoughtful news professionals Engaging and informative this text reviews what we know about media bias offers timely case studies as illustration and introduces an original framework for unifying diverse conversations about this

topic that is the subject of so much ire in our country Evaluating Media Bias allows students of American politics and politically aware citizens alike the means of detecting and evaluating bias for themselves and thus join the national conversation about the state of American news media **The Mass Media Election** Thomas E. Patterson,1980 A detailed study of presidential election news coverage and its effect on voters focuses on the news audience and the images of candidates *Assessing Media Bias in the 2008 Presidential Election* ,2010
