Re: Fundraising Officer #A22714

I wish to apply for the post of Fundraising Officer which I saw advertised on the Oxford University Careers Service website. I am in my final year at Oxford University, studying Mathematics. I have a long-standing interest in charity work and believe that I have the qualities and experience required to be a successful fundraiser.

My enthusiasm for pursuing a career in this area stems from my interest in working with disadvantaged young people, and my desire to make full use of my skills in motivating people to make a difference. OxiAID has established its credentials working in some of the most challenging areas of social aid and the government funding recently awarded to the organization is recognition of the success of its philosophy. After my experiences with Jacari, I am attracted by the opportunity to help other young people and to develop my fundraising skills in such an environment.

Motivating people to work with me towards a common, worthwhile goal is something that I find hugely enjoyable and rewarding. As Marketing and Publicity Officer for the College Ball last year I was extremely pleased that we had more applicants for tickets than ever before. I believe that the marketing pack that I put together for potential sponsors played its part in attracting record levels of sponsorship.

One of the most rewarding aspects of being at Oxford has been the work I have done with Jacari. During my time on the committee the number of volunteers involved in the project has increased by 50% and I have enjoyed both the challenge of raising the profile of the society and my work with young people themselves.

I would welcome the opportunity to discuss my application with you and look forward to hearing from you.

Yours sincerely,
Your name

Politics for the Love of Fandom Ashley Hinck,2019-03-13 Politics for the Love of Fandom examines what Ashley Hinck calls fan based citizenship civic action that blends with and arises from participation in fandom and commitment to a fan object Examining cases like Harry Potter fans fighting for fair trade YouTube fans donating money to charity and football fans volunteering to mentor local youth Hinck argues that fan based citizenship has created new civic practices wherein popular culture may play as large a role in generating social action as traditional political institutions such as the Democratic Party or the Catholic Church In an increasingly digital world individuals can easily move among many institutions and groups They can choose from more people and organizations than ever to inspire their civic actions even the fandom for children s book series Harry Potter can become a foundation for involvement in political life and social activism Hinck explores this new kind of engagement and its implications for politics and citizenships through case studies that encompass fandoms for sports YouTube channels movies and even toys She considers the ways in which fan based social engagement arises organically from fan communities seeking to change their world as a group as well as the methods creators use to leverage their fans to

take social action The modern shift to networked fluid communities Hinck argues opens up opportunities for public participation that occurs outside of political parties houses of worship and organizations for social action Fan based citizenship performances help us understand the future possibilities of public engagement as fans and creators alike tie the ethical frameworks of fan objects to desired social goal such as volunteering for political candidates mentoring at risk youth and promoting environmentally friendly policy Politics for the Love of Fandom examines the communication at the center of these civic actions exploring how fans nonprofits and media companies manage to connect internet based fandom with public issues Women Spacefarers Umberto Cavallaro,2017-03-02 This book tells the fascinating stories of the valiant women

Conspiracies have always been part of American culture but with the rise of social media has come an increase in belief in nontraditional explanations of events This book highlights a subset of conspiratorial beliefs that grew in popularity in the early 21st century These beliefs and the growing cynicism of the media have left conspiracy theorists with deep distrust of those in authority A number of theories that have arisen over the years are explored From QAnon beliefs regarding the United States government to UFO reports and other hidden agendas it is clear that we continue to challenge old ways of thinking **The Correspondence of Marcus Cornelius Fronto with Marcus Aurelius Antoninus, Lucius Verus,**

that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals as a culture and as a species In the 1960s Halperin was a teenage UFOlogist convinced that flying saucers were real and that it was his life s mission to solve their mystery He would become a professor of religious studies with traditions of heavenly journeys his specialty With *Intimate Alien* he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions believers and deniers alike From the prehistoric Balkans to the deserts of New Mexico from the biblical visions of Ezekiel to modern abduction encounters *Intimate Alien* traces the hidden story of the UFO It s a human story from beginning to end no less mysterious and fantastic for its earthliness A collective cultural dream UFOs transport us to the outer limits of that most alien yet intimate frontier our own inner space
