Mirrors Of Destruction War Genocide And Modern Identity:

Mirrors of Destruction Omer Bartov, 2000-08-24 *Mirrors of Destruction* examines the relationship between total war state organized genocide and the emergence of modern identity Here Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict mass murder of civilian populations and the definition and categorization of groups and individuals These connections were most clearly manifested in the Holocaust as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire The Holocaust however can only be understood within the context of the century's predilection for applying massive and systematic methods of destruction to resolve conflicts over identity To provide the context for the Final Solution Bartov examines the changing relationships between Jews and non Jews in France and Germany from the outbreak of World War I to the present Rather than presenting a comprehensive history or a narrative from a single perspective Bartov views the past century through four interrelated prisms He begins with an analysis of the glorification of war and violence from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society's elusive enemies or enemies from within Bartov concludes with an investigation of modern apocalyptic visions showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identities after a catastrophe Written with verve *Mirrors of Destruction* is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history

Brutality and Desire D. Herzog, 2008-12-11 Tracing sexual violence in Europe's twentieth century from the Armenian genocide to Auschwitz and Algeria to Bosnia this pathbreaking volume expands military history to include the realm of sexuality Examining both stories of consensual romance and of intimate brutality it also contributes significant new insights to the history of sexuality

Between National Socialism and Soviet Communism Anna Holian, 2011-08-30 An interdisciplinary study of refugee communities in post WWII Germany

War Stories Robert G. Moeller, 2001-02-20 Robert G Moeller powerfully conveys the complicated story of how West Germans recast the recent past after the Second World War He rejects earlier characterizations of a postwar West Germany dominated by attitudes of forgetting or silence about the Nazi past He instead demonstrates the selective remembering that took place among West Germans during the postwar years in particular they remembered crimes committed against Germans crimes that according to some contemporary accounts were comparable to the crimes of Germans against Jews Moeller draws on a wide range of U S and German government documents political debates film archives letters oral histories and newspaper accounts

Theorizing Post-Conflict Reconciliation Alexander Hirsch, 2013-06-17 The founding of

truth commissions legal tribunals and public confessionals in places like South Africa Australia Yugoslavia and Chile have attempted to heal wounds and bring about reconciliation in societies divided by a history of violence and conflict This volume asks how many of the popular conclusions reached by transitional justice studies fall short or worse unwittingly perpetuate the very injustices they aim to suture Though often well intentioned these approaches generally resolve in an injunction to move on as it were to leave the painful past behind in the name of a conciliatory future Through collective acts of apology and forgiveness so the argument goes reparation and restoration are imparted and the writhing conflict of the past is substituted for by the overlapping consensus of community And yet all too often the authors of this study maintain the work done in assuaging past discord serves to further debase and politically neutralize especially the victims of abuse in need of reconciliation and repair in the first place Drawing on a wide range of case studies from South Africa to Northern Ireland Bosnia Rwanda and Australia the authors argue for an alternative approach to post conflict thought In so doing they find inspiration in the vision of politics rendered by new pluralist new realist and especially agonistic political theory Featuring contributions from both up and coming and well established scholars this work is essential reading for all those with an interest in restorative justice conflict resolution and peace studies Germany as a Culture of Remembrance Alon Confino,2017-03-01 An acknowledged authority on German history and memory Alon Confino presents in this volume an original critique of the relations between nationhood memory and history applied to the specific case of Germany In ten essays three never before published and one published only in German Confino offers a distinct view of German nationhood in particular and of nationhood in general as a product of collective negotiation and exchange between the many memories that exist in the nation The first group of essays centers on the period from 1871 to 1990 and explores how Germans used conceptions of the local or Heimat to identify what it meant to be German in a century of ideological upheavals The second group of essays comprehensively critiques and analyzes the ways laypersons and scholars use the notion of memory as a tool to understand the past Arguing that the case of Germany contains particular characteristics with broader implications for the way historians practice their trade Germany as a Culture of Remembrance examines the limits and possibilities of writing history **The Historiography of the Holocaust** D. Stone,2004-01-20 This collection of essays by leading scholars in their fields provides the most comprehensive and up to date survey of Holocaust historiography available Covering both long established historical disputes as well as research questions and methodologies that have developed in the last decade s massive growth in Holocaust Studies this collection will be of enormous benefit to students and scholars alike Judicial Imagination Lyndsey Stonebridge,2014-05-21 Tells the story of the struggle to imagine new forms of justice after Nuremberg **Apologia Politica** Girma Negash,2006-04-27 Apologia Politica defines and explores the nature of public apology Focusing on collectivities and their agencies in the apology process author Girma Negash examines public apology as ethical and public discourse recommends criteria for the apology process analyzes historical and contemporary cases and formulates

a guide to ethical conduct in public apologies This is a groundbreaking work elaborating upon the interface between ethics and statecraft in the domain of public apology Using democracy moral identity and accumulated wisdom as a yardstick in the prescription of ethical conduct *Apologia Politica* proposes four imperatives for successful public apology acknowledgement public exposure and truth telling remorse through public record and finally defining identity for accountability It is a valuable resource for those interested in peace building or the relationships between Germany and Israel Japan and its neighboring countries the international community and Rwanda and the United States and China **Public Opinion** William A. Blade,2002 Twenty four news networks a plethora of newspapers and magazines vibrant news talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of an issue making once private beliefs fodder for general consumption A staple of any medium s content is a regular public opinion poll on whatever hot topic strikes the editor s fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today s world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are then provided with author title and subject indexes *Diplomatic Interventions* K. Fierke,2005-04-22 *Diplomatic Interventions* argues that war is a social construction In so doing it unsettles the definition of intervention as a coercive interference by one state in the affairs of another to examine the range of communicative or diplomatic practices which through their presence modify the experience of war The tension between claims that war is pervasive and that war is a social construct is analysed in relation to a range of moral legal military economic cultural and therapeutic interventions The concluding chapter highlights how the book itself is a critical intervention that requires us look at again from a new angle at international practice [The New York Times Book Reviews 2000](#) New York Times Staff,2001 This anthology examines *Love s Labours Lost* from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource **Barbed Wire Diplomacy** Neville Wylie,2010-03-25 *Barbed Wire Diplomacy* examines how the United Kingdom government went about protecting the interests lives and well being of its prisoners of war POWs in Nazi Germany between 1939 and 1945 The comparatively good treatment of British prisoners in Germany has largely been explained by historians in terms of rational self interest reciprocity and influence of

Nazi racism which accorded Anglo Saxon servicemen a higher status than other categories of POWs By contrast Neville Wylie offers a more nuanced picture of Anglo German relations and the politics of prisoners of war Drawing on British German United States and Swiss sources he argues that German benevolence towards British POWs stemmed from London's success in working through neutral intermediaries notably its protecting power the United States and Switzerland and the International Committee of the Red Cross to promote German compliance with the 1929 Geneva convention and building and sustaining a relationship with the German government that was capable of withstanding the corrosive effects of five years of warfare Expanding our understanding of both the formulation and execution of POW policy in both capitals the book sheds new light on the dynamics in inter belligerent relations during the war It suggests that while the Second World War should be rightly acknowledged as a conflict in which traditional constraints were routinely abandoned in the pursuit of political strategic and ideological goals in this important area of Anglo German relations customary international norms were both resilient and effective

Devastation Mark Levene, 2013-12 Explores the genocidal events of the period from 1912 to 1938 particularly focussing on the Balkans the Great War and the emergence of the Stalin and Hitler States and seeks to integrate them into a single coherent history

The Origins of Nazi Violence Enzo Traverso, 2010-10 In the half century since the appearance of Hannah Arendt's seminal work *The Origins of Totalitarianism* innumerable historians have detailed the history of the Nazi years Now in a brilliant synthesis of this work Enzo Traverso situates the extermination camps as the final terrible moment in European modernity's industrialization of killing and dehumanization of death Traverso upends the conventional presentation of the Holocaust as an inexplicable anomaly navigating an excess of antecedents both technical and cultural Deftly tracing a complex lineage the guillotine and machine gun the prison and assembly line as well as widespread ideologies of racial supremacy and colonial expansion Traverso reveals that the ideas that coalesced at Auschwitz came from Europe's mainstream and not its margins

The Holocaust and Historical Methodology Dan Stone, 2012 This book is timely and necessary and often extremely challenging It brings together an impressive cast of scholars spanning several academic generations Anyone interested in writing about the Holocaust should read this book and consider the implications of what is written here for their own work There seems to me little doubt that Holocaust history writing stands at something of a cross roads and the ways forward that this volume points to are extremely thought provoking Tom Lawson University of Winchester

Religious Humanitarianism during the World Wars, 1914-1945 Patrick J. Houlihan, 2024-06-30 The history of modern war has focused on destruction however practices of saving lives and rebuilding societies have received far less scrutiny The world wars reconfigured geopolitics on a sacred secular spectrum dominated by the USA and the USSR In these events the motivations of humanitarian actors are disputed as either secular or religious evoking approval or censure Although modern global humanitarianism emerged during the world wars it is often studied in a Euro centric framework that does not engage the conflicts globality The effects of humanitarianism during the Second World

War look toward the post 1945 era with not enough reflection on the pre 1945 history of humanitarianism Thus what is needed is a critical history beyond moralizing bringing synchronic and diachronic expansion to study questions of continuity and change A global history of religious humanitarianism during both world wars places faith based humanitarianism on a spectrum of belief and unbelief

Visualizing Atrocity Valerie Hartouni, 2012-08-20 Visualizing Atrocity takes Hannah Arendt s provocative and polarizing account of the 1961 trial of Nazi official Adolf Eichmann as its point of departure for reassessing some of the serviceable myths that have come to shape and limit our understanding both of the Nazi genocide and totalitarianism s broader constitutive and recurrent features These myths are inextricably tied to and reinforced viscerally by the atrocity imagery that emerged with the liberation of the concentration camps at the war s end and played an especially important evidentiary role in the postwar trials of perpetrators At the 1945 Nuremberg Tribunal particular practices of looking and seeing were first established with respect to these images that were later reinforced and institutionalized through Eichmann s trial in Jerusalem as simply part of the fabric of historical fact They have come to constitute a certain visual rhetoric that now circumscribes the moral and political fields and powerfully assists in contemporary mythmaking about how we know genocide and what is permitted to count as such In contrast Arendt s claims about the banality of evil work to disrupt this visual rhetoric More significantly still they direct our attention well beyond the figure of Eichmann to a world organized now as then by practices and processes that while designed to sustain and even enhance life work as well to efface it

The Allure of Battle Cathal Nolan, 2017-01-02 History has tended to measure war s winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan s The Allure of Battle systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side s defences Massive conflicts the so called people s wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan s masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle s role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating The Allure of Battle will spark fresh debate about the history and

conduct of warfare **Hannah Arendt and International Relations** A. Lang, 2005-07-14 Hannah Arendt's approach to politics focuses on action and conduct rather than institutions, constitutions, and states. In light of Arendtian conceptions of politics, essays in this book challenge conventional IR theories.
